# SAYREVILLE PLANNING BOARD

# **MINUTES OF May 1, 2024**

The meeting of the Sayreville Planning Board was called to order by Chairman Tighe and opened with salute to the flag. Chairman Tighe announced that the meeting was being conducted in accordance with the Open Public Meeting Law P.L. 1975, c231, Public Law, 1975.

Members of the Planning Board present were: Mr. Allegre, Mr. Bolton, Ms. Lahrman, Mr. Muller, Mr. Shah, Councilman John Zebrowski and Chairman Tighe

Absent Members: Mr. Chodkiewicz, and Mr. Ellmyer

Also present were: Mr. Cornell, Mr. Fowler, Mr. Sordillo, Esq, Mr. Pohlman, Esq and Mr.

Fishinger, Jr.

### AT THIS TIME, THE MEETING WAS OPENED:

Chairman Tighe asked the Planning Board Secretary if the board meeting was being conducted under the Sunshine Law and if all publications were notified, the secretary had stated, yes.

#### SITE PLANS/SUBDIVISION HEARING:

Masjid Sadar Community Center/House of Worship Preliminary & Final Major Site Plan 212-216 Ernston Road, Sayreville Blk 444.04, Lots 23, 24, 25 & 28 Atty: Law Office of Lawrence B. Sachs

8 Auer Court, #G East Brunswick, NJ 08816

Please refer to the attached transcription for the full testimony and public questions/comments.

# **OLD BUSINESS/NEW BUSINESS/ADMINISTRATIVE MATTERS:**

Next meeting on May 15<sup>th</sup> has been canceled; The June 19th meeting will have continuation of Masjid Sadar applicant. Location will be at the Active Adult Center on Main Street.

There being no further business to discuss, Mr. Allegre made a motion to adjourn; seconded by Mr. Bolton.

Respectfully submitted,

Beth Magnani Planning Board Secretary

	7	١.	
1	CHAIRMAN TIGHE: Good evening.	1	SECRETARY MAGNANI: No, Chairman, we
2	Listen, it's very echoey echoing in here, so if	2	don't.  CHAIRMAN TIGHE: Acceptance of minutes?
3	you can please keep it down and let people speak, I	3	
4	think we'll have a much better meeting than we did.	4	SECRETARY MAGNANI: None this evening.
5	If you get up to speak you get three minutes, let	5	CHAIRMAN TIGHE: Communication agenda?
6	everybody speak before you get up again and if you	6	SECRETARY MAGNANI: None this evening.
7	all stand, we'll say the Pledge of Allegiance.	7	CHAIRMAN TIGHE: Mr. Sachs, the floor
8	(Pledge of Allegiance.)	8	is yours.
9	Beth, can we have a roll call.	9	ATTORNEY SORDILLO: Actually,
10	SECRETARY MAGNANI: Chairman, we have	10	Mr. Chairman, before we get to there, if I could
11	to do the Sunshine Law, please.	11	just make two accomplish two items.
12	CHAIRMAN TIGHE: Can we have a roll	12	One, just so everyone on the board is
13	call? Oh, Sunshine Law. Has the meeting been	13	aware, we have received a copy of the transcript
14	called, the planning board meeting published in	14	from the prior hearing on this. Anyone who was not
15	accordance with the Sunshine Law?	15	at the last meeting must review those transcripts
16	SECRETARY MAGNANI: Yes, Chairman, it	16	and certify. We will provide a certification for
17	has.	17	you that you have done so before you are able to
18	CHAIRMAN TIGHE: Okay. We'll have a	18	vote on this application.
19	roll call now.	19	I'm not sure if we're going to get to a
20	SECRETARY MAGNANI: Mr. Allegre?	20	vote tonight, but assuming that we do not, I would
21	MEMBER ALLEGRE: Here.	21	need to have that done. You will have to complete
22	SECRETARY MAGNANI: Mr. Bolton?	22	that and have that done before you are able to vote.
23	MEMBER BOLTON: Here.	23	Second, we do have a special
24	SECRETARY MAGNANI: Mr. Ellmyer? Ms.	24	professional on behalf of the board here this
25	Lahrman?	25	evening in connection with this application, who is

located along westbound Ernston Road. There's

currently two single-family residential structures,

3 and a third structure, which had been a residence,

had later been a professional office, and was most

recently used as the mosque. 5

existing conditions.

Each one of those sites, or combined between the three sites. There was a total of four full-movement driveways. And that would be to the west of the intersection with Center Avenue. So four full-movement driveways on the property under

The applicant proposes to demolish all 13 of those structures on the subject property and construct a new mosque. It's going to be somewhat centrally located, a bit offset to the rear of the property.

There's going to be one full-movement driveway at the eastern portion of the site and one driveway which allows full ingress and right-turn only egress at the western portion of the driveway. They had been proposed at one point to be both full movement and we looked at various other access scenarios with the county and based on their feedback this is the design that is moving forward. At the time the traffic study was

So we spent a lot of time coordinating with the board's professionals, CME, as well as with the county to develop a scope for the traffic study and that was what was in the study that was originally submitted. And, again, revised through August 8th of '23.

The other unusual piece of the puzzle with this application is the fact that the ITE, the Institute of Transportation Engineers, does not have a lot of good data published for this type of use. You know, some of those other uses that I mentioned, gas stations, you might have hundreds and hundreds of data points in the ITE Trip Generation Manual, whereas for a mosque you only have two.

So the data is little bit questionable so we were forced to rely on data, based on observations of the operation at the site, when the mosque had been operating at the property, as well as a number of conversations with the client for how they anticipate the facility to operate in the future.

So with that said, just a brief discussion of the existing site conditions. The property is about two-and-a-half acres. It's

W. Stimmel, PE, PP, PTOE

18

17

1 submitted, both driveways were projected to be full 2 movement, though, so that's what I'm going to talk 3 about first.

4 We have a schedule of events which was provided to us by the client. Just to briefly run 5 through that, there is typical regular daily prayers 6 which are five days a week -- five times a day, 7 seven days a week. You're talking about something 8 9 along the lines of 15 to 30 vehicles.

You've got the primary Friday afternoon prayers, which was the focus of our traffic study. 11 12 I think it is clear at this point that that is when the mosque is going to be at its busiest. We anticipate two sessions with 60 to 90 vehicles occupying 60 to 90 parking spaces, of course.

Religious education on Sunday afternoons with approximately 32 children attending. 32 vehicles would enter the site but with very limited use of the parking because the parents will generally drop off and leave.

The prayer for the deceased, something 22 akin to a funeral service that many people might be more familiar with, obviously, it occurs as necessary. You would have something along the lines of 60 to 100 persons attending, 30 to 50 vehicles,

W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 21 19 The nearest intersection is Ernston 1 30 to 50 occupied parking spaces. 1 Road and Bordentown Avenue. It's a four-leg 2 Religious weddings, again, as needed. 2 Typically on a Saturday afternoon. These are a 3 intersection controlled by a traffic signal. 3 Northbound and southbound and eastbound approaches little bit smaller; you would have 20 to 30 persons 4 attending, 10 to 15 vehicles. And there would be no 5 to the intersection, each provided a left-turn lane, 5 a through lane and a right-turn lane. The westbound wedding receptions held on the subject property. 6 That was already stipulated to at the last meeting 7 approach to the intersection, which you would be using if you made a right out of the site driveway, and it's in the record. provides a left-turn lane, a through lane and a 9 And then, finally, family nights which 9 would occur once a month on Friday nights with 90 to 10 shared through/right-turn lane. 10 100 persons attending. Because it's a 11 There are two minor intersections along 11 Ernston Road between the site frontage and the family-orientated event, we anticipate high 12 12 intersection with Bordentown Avenue, those being occupancy of the vehicles, and only 25-or-so 13 13 vehicles staying on the property for the duration. Parkway Place and Rutgers Road. These are 14 14 So these are all scheduled events. stop-controlled intersections with the Ernston Road 15 15 16 traffic having the right-of-way. Any site-generated Obviously, there's some variation in the funerals 16 traffic added to those intersections is anticipated and the weddings, but they're planned ahead of time. 17 17 to consist primarily as through-traffic along Nothing occurs spur of the moment. There is not a 18 18 Ernston Road and will have a minimal impact on situation where two events are scheduled at the same 19 19 operations at these locations. 20 time. And certainly, nothing else will be occurring 20 during the same time as that Friday afternoon prayer 21 We did a number of traffic counts. We 21 22 did two separate sets of traffic counts with the 22 service. submission of the initial traffic study. The first The other point, which is important to 23 23 mention and I guess this would be an appropriate 24 set of traffic counts were done April 29th --24 Friday, April 29th of 2022 from 12 p.m. until time to do so, is that the facility is not going to 25 25 W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 22 20 be in operation 24 hours a day. There was some 1 4:00 p.m. at the driveways for 216 Ernston Road, 1 when the mosque was in operation. So that was done discussion of that the last time and that is just 2 2 not the case. So typically, the daily prayer 3 while school was in session. 3 services, which occur five times a day, would mark 4 MEMBER ALLEGRE: Sorry, can you repeat 4 that dat again? 5

17

20

21

22

the beginning and the end of a regular day at the mosque, with the earliest service being at 6 o'clock and latest service being at about 8:30.

The existing roadway network in the

6

7

9

10

11

17

18

19

vicinity of the site, obviously the site runs on Ernston Road, also known as county Road 673. It's under the jurisdiction of Middlesex county. There's 12 one lane provided for travel in each direction. Because of the fact that we're located along a 13 14 county road, the county ultimately has jurisdiction over the site driveway and the driveway 15 configuration. 16

Bordentown Avenue is the closest intersection to the west, also known as county Road 615. Again, under the jurisdiction of Middlesex county.

20 21 There are four driveways which 22 intersect Ernston Road along the site frontage. 23 Three of them effectively operate as residential driveways, and one is a little bit wider with striped turning lanes.

6 THE WITNESS: The first round of traffic counts that were done for this case were on 7 Friday, April 29th of 2022 from 12:00 p.m. until 8 4:00 p.m. So school was in session on that day. I 9 know that the board members and the residents were 10 concerned about collecting data while school was in 11 session. 12 13 And it's also worth noting that the

mosque was in operation at that time, since been 14 shut down obviously, but at that time it was 15 operating. So we captured driveway volumes at the 16 mosque under those previously existing conditions. 18 Those time periods were selected to 19

capture high volumes of street traffic, as well as high volumes of site-generated traffic. Again, we expect the busiest time for the mosque is going to be that Friday afternoon prayer service.

Based on those counts, the existing 23 peak-hour traffic volumes at the mosque driveways 24 were found to occur from 1:00 p.m. until 2:00 p.m. 25

13

14

15

16

17

18

19

20

21

22

23

24

25

which reflects the peak times for the Friday 2 prayers.

3 At the request of the board engineer, that being CME Associates, additional traffic counts 4 were conducted at the intersection of Ernston Road and Bordentown Avenue on Friday, June 16th, 2023 6 from 12 until 4:00 p.m. and again on Sunday, 7 June 18th, 2023, from 9:30 a.m. to 1:30 p.m. 8 9 So that Friday count was conducted on a day when there was no school, though school was 10 still in session. Clearly, not an attempt to pull 11 any subterfuge, it was just a matter of -- we had 12 some back and forth with the board engineer, until 13 14 we settled on a scope, until we found a Friday when we had people available to count it, that's just 15 when it fell. We had already had the earlier counts 16

while school was in session, and we needed to 17 collect additional data that included Bordentown 18

Avenue both for the Friday peak hour, but also for 19 20 the Sunday peak hour. And rather than wait until

the end of the summer and put the project on ice for 21

three months, we did it when the opportunity 22 23 presented itself.

That intersection was selected due to 24 25 the orientation of site-generated traffic at the

#### W. Stimmel, PE, PP, PTOE

24

site driveways when the mosque was in operation. 1

2

3

4 5

6

7

8

9

10

11

12

22

23

24

25

So peak-hour volumes for the intersection of Ernston Road and Bordentown Avenue, based on those June of '23 counts, are appended to the traffic study as Figure 2, representing the existing conditions.

We had also collected data at two other nearby mosques in the vicinity of the site to try to establish vehicle occupancy rates, meaning if you count 20 cars going into the mosque driveway for prayer services, how many people on average are in each of those cars?

So we counted two mosques in the area. 13 One is the Anjuman-E-Burhani mosque in East 14 Brunswick, the other is the Dawatul Islamia Mosque 15 in Somerset. The one is a larger facility, it has a 16 17 footprint of about 15,000 square feet with a substantial parking area. The other one is a little 18 bit smaller and presents as a -- presents as a 19 residential dwelling, more or less, it has two 20 driveways and a parking lot in the rear. 21

But the occupancies per vehicle were very close for both of those two sites. It was 1.82 persons per vehicle for the one and 1.88 persons per vehicle for the other.

So we took the existing traffic 1 volumes. We analyzed them utilizing highway capacity software. For the members of the public who are not familiar, the software takes different parameters at the intersection, lane configuration, 5 traffic volumes, signal timing, truck percentages, et cetera, and analyzes the delay at each approach and at each lane grouping, and then assigns a grade, 8 based on that average to a lane on an A through F 9 scale. It's just like when you were in school, A is 10 11 the best and F is the worst.

So the analysis of the existing traffic volumes for that studied intersection are shown in the attached Figure 3. As indicated, the movements at the intersection operate at Level of Service C or D under existing conditions for that 1 to 2:00 p.m. period on a Friday afternoon.

Site-generated traffic volumes, as I

had said before, there's not a lot of industry data available for mosques. The ITE, the Institute of Transportation Engineers, has limited data at two sample sites and there was no data available through the DOT. So the projections for future traffic volumes are based on a comparison of existing volumes at the site, in addition to what the client

#### W. Stimmel, PE, PP, PTOE

26

projects as a result of the proposed development.

So currently the site has --2 currently, previously, in 2022, the site had prayers 3

once per afternoon during that Friday peak period. 4 150 vehicles entered the site during the busiest

hours of the Friday peak, based on those traffic

counts that were conducted in '22. And that day was

selected because it represented a holiday for the

celebrants and was anticipated to have higher

volumes of traffic on that day than on a typical 10

Friday. 11

14

21

22

23

12 Again, the Friday prayers are expected to be the peak of site-generated traffic. 13 Anticipated service attendance on Friday afternoons is expected to be no greater than 90 vehicles. In 15 the future, the applicant, if the facility is 16 approved, will have two separate prayers on Friday 17 afternoons, thus splitting the traffic, versus what 18 19 had been previously occurring. 20

The board engineer was also concerned about the volume of traffic generated by the religious instruction for children on Sundays, so that's why we also included the Sunday peak hour in the analysis of operations. We anticipated 30 24 vehicles at the start of the session entering the 25

site, 30 vehicles exiting the site at the end of 1 session thinking the parents would be likely to drop 2 3 off their children and run errands or go home or whatever they do and then come back when it's over. 4

5 We didn't take any credit for the possibility or the likelihood, in fact, that you 6 7 would certainly have siblings, cousins, neighbors that might be inclined to carpool together to both of those religious education classes. 9

10

11

12

13

15

16

17

18

19 20

21

22

23

24

25

So the projected site-generated traffic for both the Friday peak hour and the Sunday religious education services were routed through the adjoining intersection and through the site driveways, based on the percentages observed in June of '22 at the site driveways when the mosque was in operation. So the projected site traffic volumes are shown on the attached Figure 4 of the report.

CME had also asked that we look at data published for churches as a point of comparison. Using the assembly area of 19,941 square feet, the traffic associated with a church would be about 105 vehicles, 211 trips during the critical Sunday peak hour, which is comparable, I would say, to what is anticipated for the proposed mosque, although the church would experience its peak hours of traffic

### W. Stimmel, PE, PP, PTOE

generation on Sunday morning as opposed to Friday afternoon for the mosque.

Future traffic volumes, in order to 3 4 account for background traffic growth in the area as well as other developments in Sayreville, existing 5 traffic volumes were increased by a growth rate of 1 6 percent for a two-year build-out period. So it was 7 2023 that the study was submitted through 2025 to 8 develop the future no-build traffic volumes. 1 9 percent growth rate was selected based on data 10 published by the DOT for minor arterial roadways in 11 12 Middlesex county.

So the future volumes, without site traffic, which was the background traffic growth as shown in Figure 5 of the report, future volumes with the site traffic and the background traffic growth are shown on Figure 6 of the report.

So once again, as with the existing conditions, the future no-build and build traffic volumes were analyzed using the Highway Capacity Software. The results of those analyses are shown on Figures 7 and 8, respectively.

There were no changes when comparing levels of service for movements under existing, no-build and build conditions at the studied

were projected to operate at Level of Service B during both the Friday and Sunday peak periods. 3 All of those -- all of those levels of 4 5 service are shown in the figures at the end of the report. They are also shown along with the average 6 delay for each of the movements in the appended 7

Level of Service Delay Table.

intersections. All movements at the site driveway

The applicant has agreed to hire an off-duty officer from the Sayreville Police Department to control traffic at the site driveways during and after Friday prayer services, as well as periodic events which are expected to have higher-than-typical attendance. Per the results of these analyses, the impact of site-generated traffic on levels of services is negligible.

The parking supply, based on the review of the site plan prepared by AWZ Engineering, last revised February 3rd, '23 -- clearly the site plan has been revised several times since then -- the applicant is required to provide 113 parking spaces for the combined place of worship, gymnasium, office, and classrooms. So that 113 spaces is based on the calculation for the assembly area with the requirement of one parking space per 250 square

### W. Stimmel, PE, PP, PTOE

the calculation that the ordinance requires the

applicant to use. So the higher requirement of 362 parking spaces, I believe it was, using one space per three seats, is not relevant here because there's not seating proposed in the assembly area. So 113 parking spaces required, 109 parking spaces are proposed. We do need a variance based on that deficiency of four parking spaces. Just a reminder, the gymnasium will not be in use when the prayer services are being conducted. Parking required for the gymnasium constitutes 46 of

Therefore, we believe that the proposed parking supply is adequate for the intended use of the property and would address the demand for the parking on the property under the majority of the conditions.

the 113 required parking spaces.

As far as the site layout and 21 circulation, I think the site plan is generally 22 compliant with the ordinance requirements. The 23 typical parking spaces on-site measure 9 feet by 18 feet, in accordance with engineering standards. There's six ADA parking spaces provided, including 25

western driveway.

W. Stimmel, PE, PP, PTOE

W. Stimmel, PE, PP, PTOE

movements based on directions from Middlesex county.

last hearing that we had on April 3rd, we received a report from the board's traffic consultant Bright View Engineering, Mr. Fishinger, who I know is here this evening. And I assume you have had an opportunity to review that and I'm assuming you're prepared to respond to that.

Is that correct? 14

24

THE WITNESS: That is correct. 15

ATTORNEY SACHS: Okay. 16

17 Mr. Chairman, if you would like, I wouldn't mind, and if it's okay with your board 18 professionals, I would like to go through the -there are a number of comments and questions raised 20 in that Bright View report and we would like to at 21 least put testimony on the record. 22

23 CHAIRMAN TIGHE: Proceed. 24 ATTORNEY SACHS: Okay, thank you. So with that said, Mr. Stimmel, if you 25

#### W. Stimmel, PE, PP, PTOE

35

can -- if you want to just briefly talk about the comment that is made on the Bright View report and 2 then your particular response to any questions that 3 4 Mr. Fishinger might have had. 5

THE WITNESS: Certainly. The letter from Mr. Fishinger's office is dated April 9th of 6 2024. There are a total of 13 comments related to -- I'm going to call it traffic operations, and 8 then an additional 14 comments related to site plan 9 10 issues, circulation, et cetera.

I'm going to start off under the Traffic Impact Study Comment Number 1 talks about the counts being conducted in March of '24, and June of '23. Noted that the counts are consistent -generally consistent with historic data in the area, recommend that additional count data be collected to determine the traditional weekday morning, weekday late afternoon, weekday evening and Saturday midday peak hours on Ernston Road. Further recommended, a seven-day ATR-style count.

We counted the site frontage. We 22 counted the intersection with Bordentown Road, a number of times. We have had extensive consultation with the board professionals -- the board's regular engineer, CME Associates. We have also gone through W. Stimmel, PE, PP, PTOE

the review process and received conditional approval

from the county. Certainly, I hope at this point

we're all in agreement that the Friday prayer 3

service is peak time for operations at the proposed 4

5 mosque.

18

20

21

22

23

24

25

The DOT has collected traffic data 6 along Ernston Road to the west of Bordentown Avenue, 7 which we can review and summarize. But at this point, you know, we believe we've collected enough data to show what the operation of the site is going 10 to be like. 11

12 The second comment is based on a recent visit. "On the afternoon of Friday, March 22nd, the 13 14 westbound approach to the traffic signal at Ernston Road and Bordentown backs up past the site frontage. 15 Additional information/testimony should be provided 16 regarding these backups. " 17

So I had -- we had collected the 19 traffic data at the mosque in April of '24, when it was operational using video camera. So I went back and looked at the video footage at the location of the existing site driveway, the easternmost driveway, which will be the full-movement driveway under proposed conditions, it's approximately the same location. And what I found from watching five

### W. Stimmel, PE, PP, PTOE

38

37

hours of video there, is that, generally speaking,

traffic is flowing freely across the site frontage.

You've got a handful of queues --3

CHAIRMAN TIGHE: We're drowning out; 4 we can't have that. We have to get the Sunshine 5 Script. If you could please keep the laughter down, 6 I would appreciate it. Thank you. 7

MEMBER OF THE AUDIENCE: Quiet up. 8 CHAIRMAN TIGHE: Thank you. Quiet up. 9

THE WITNESS: So generally in the 10 period for which we had video, from 11:15 until 11 4:15, traffic is freely flowing across the site 12

frontage. There were a handful of gueues which 13

extended across the property frontage, which could 14

15 be -- could be certainly from the signal. Could be

16 from school buses going by with the stop sign arm

stopping traffic. Could be from people waiting to 17

make a left turn into one of the streets on the Old 18

Bridge side of the road. It could be for a number 19

of factors. But that was a handful of times during 20 21 that period.

There was a period of queuing when the 22 23 -- when the mosque discharged their services, again, 24 that was the peak Friday service under holiday

condition. There was only one service at that time, 25

	W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE 41
_	39	1	much smaller, we know that. We know that.
1	so there was a significant amount of traffic leaving the mosque.	1 2	MEMBER OF THE AUDIENCE: Shhh!
2	But the cars pulled out into traffic,	3	ATTORNEY SACHS: Mr. Chairman, we're
3 4	people generally stopped to let them out. It	4	having difficulty with the transcript if we get any
	actually made it easier to make left turns coming	5	chatter from anyone thank you.
5	out of the driveways at that time because the cars	6	CHAIRMAN TIGHE: Thank you. We need
6	were slowing down for the queue at that location.	7	to have silence. We have to get this on transcript
7	But within ten minutes let's say, the queue from the	8	in case we need it. So if would you just keep it

ATTORNEY SACHS: Mr. Stimmel, if you want to respond to some of the other questions raised in the Bright View report?  THE WITNESS: Sure. I'm just going to move forward with the review from Mr. Fishinger.  Comment Number 3, it includes an analysis of the intersection of Ernston Road and Bordentown Road for Friday between 1 and 2:00 p.m. Based on and then it goes onto a discussion on some of the different data sets that were provided, and asks for clarification and justification for the use of the 1 to 2:00 p.m. Friday, midday, peak hour.  That was selected as it was the time period that represented the peak of traffic based on the original traffic counts. Certainly, we could update that because we've got a number of different data sets and I think assuming, which is fair, that we're not going to complete this application tonight, we can coordinate with the Mr. Fishinger in the interim and settle on what he believes is an appropriate peak hour.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	there's no zig-zagging between lanes for the traffic or anything like that. And the fact that the applicant, again, has stipulated that they would provide a uniformed police traffic director at the property to help direct traffic, I don't see an issue with it.  ATTORNEY SACHS: Before you get to the next point, so at the time that the mosque was in operation back in 2022, it was one service and it was a full-movement driveway. Obviously, we're talking about an entirely different situation now with this proposal with obviously two services and restrictions on turns?  THE WITNESS: Correct.  ATTORNEY SACHS: Okay.  MEMBER ALLEGRE: Mr. Chairman?  CHAIRMAN TIGHE: Yes.  MEMBER ALLEGRE: Can I ask a question; what was the square footage of the mosque back in April of 2022?  MR. SACHS: Sorry, what was the question?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	THE WITNESS: Yes.  MEMBER ALLEGRE: Okay.  ATTORNEY SACHS: Mr. Stimmel, if you want to respond to some of the other questions raised in the Bright View report?  THE WITNESS: Sure. I'm just going to move forward with the review from Mr. Fishinger.  Comment Number 3, it includes an analysis of the intersection of Ernston Road and Bordentown Road for Friday between 1 and 2:00 p.m. Based on and then it goes onto a discussion on some of the different data sets that were provided, and asks for clarification and justification for the use of the 1 to 2:00 p.m. Friday, midday, peak hour.  That was selected as it was the time period that represented the peak of traffic based on the original traffic counts. Certainly, we could update that because we've got a number of different data sets and I think assuming, which is fair, that we're not going to complete this application tonight, we can coordinate with the Mr. Fishinger in the interim and settle on what he believes is an appropriate peak hour.  Annual background traffic growth,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	there's no zig-zagging between lanes for the traffic or anything like that. W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 43 45 and environment was more important necessarily than published an annual growth rate table, which increased the traffic growth for urban minor matching all the facilities between the two sites. 2 2 And what the data showed is that that arterials to 2.75 percent. 3 3 is essentially true, the large site with the So the DOT publishes data with 4 4 extensive parking and the smaller site in the background traffic growth rates for different kinds 5 5 context of a residential dwelling is the way it of roadways, based on counties, based on urban and 6 6 7 rural locations. When the traffic study was 7 presents from the street had roughly the same originally prepared and submitted, that data occupancy per vehicle. 8 8 reflected a 1 percent growth rate for urban minor 9 Comment Number 8: "The TIA states a 9 maximum of 90 vehicles are anticipated to enter and arterials in Middlesex county, which is how they 10 10 classified Ernston Road. So that's what was used in exit the site on a typical Friday midday prayer 11 11 the study. They have since updated their data; it service. Additional data as to how that was 12 12 determined shall be provided." now shows 2.75 percent. 13 13 14 Generally speaking, you don't have any 14 That was provided based on data provided from the client. He's looking at the issue with updating the report to reflect this. I 15 15 would note, and this gets into the next comment, I previous operation of the mosque on the property and 16 16 anticipating that that congregation, if you will, is contacted the Sayreville Zoning Department and the 17 17 going to stay largely intact, so that the people Old Bridge Zoning Department and there are no other 18 18 going to the site in '22 are going to be the same developments in the area which are expected 19 19 to anticipate -- which are expected to impact people that were going there in 2024. 20 20 21 traffic operations along that section of Ernston 21 At the April 3rd, '24 planning board Road. So nothing in planning that they're aware of hearing testimony was provided that none of the 22 22 and nothing under construction right now. 23 amenity space would be utilized during scheduled 23 prayers. Certainly, we are all in agreement with The other part of that is that those 24 24 that; the primary prayers when they're occurring background traffic growth rates, for the purposes of 25 25 W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 46 44 will be the only thing that's happening on the a traffic study, are assumed to occur whether or not 1 this application moves forward. So when you're subject property. 2 2 comparing the no-build and build volumes for the 3 The masjid, the people who run the masjid will have control over the operations and, future conditions, you are raising both sets, so the difference between the two doesn't change. So it, certainly, it's going to be one thing at a time. 5 5 It's not going to be all uses occupied and in use at to some extent, gets lost in the background noise 6 6 when you're looking at it. 7 once. 7 Comment Number 6 talks about the 150 8 ATTORNEY SACHS: And if I could just 8 comment on that, I don't know if Mr. Fishinger or vehicles entering the site for the Friday prayers on 9 9 10 a holiday peak period. It would probably be more 10 Mr. Cornell want us to provide some type of statement as to when those uses will be in service. precise to say that 150 vehicles enter the site 11 11 during the busiest one hour leading up to those Obviously, it's not going to be when ritual 12 12 13 13

Friday prayers. So again, that's with the provision of a single service on the property, and again, with the fact that it was holiday traffic.

14

25

15 Comment Number 7, I touched on this a 16 17 little bit already. It talks about the limited ITE data for a mosque. The TIA conducted traffic counts 18 at other facilities to determine the average vehicle 19 occupancy. And, you know, I talked a little bit 20 about that and how they compare to the size of the 21 site. Since it's a rate, it's not a total number, 22 it's not the total number of trips in and out of the 23 24 site, not the total number of parking spaces

occupied. We didn't feel -- we felt the proximity

activities occur.

ENGINEER FISHINGER: And just to clarify, that was the intent of this comment is, I understand you're not going to have a basketball game at the same time as prayer, but then when are you using the basketball court, the running track, the other parts of the site? [Request]

ATTORNEY SACHS: That's fine. We can provide that.

THE WITNESS: The trip generation estimates for the entire facility should be provided for the weekday morning, evening, Saturday midday time periods based on the requested schedule of

23

24

25

requirement of 113 parking spaces. We're providing

109 parking spaces, but for that critical Friday

prayer service there's going to be two sessions so effectively it's going to operate as 218 parking

22

23

Just looking at my notes, the ITE

W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 55 57 the two properties where we collected data. We of '23. 1 The Parking Generation references the could take a look at the trip generation and the 2 parking demand for that and confer with 3 sample size of three sites with an average area of Mr. Fishinger, prior to the next meeting to see if 4,700 square feet of floor space. So that has a 4 he felt that that data was appropriate. parking requirement of 28.38 spaces per 1,000 square 5 5 ATTORNEY SACHS: And one other point feet. And I think that's where the calculation of 6 6 905 comes in. just so the record is clear, when you talk about the 7 fact that traditionally there are no seats in a The other number that I referenced was 8 8 mosque, there are no seats in the mosque; is that based on the Sayreville ordinance, and I'm having a 9 10 hard time putting my finger on it right now because 10 correct? THE WITNESS: That's my understanding. I've got about 200 pages of notes -- "Parking 11 11 ATTORNEY SACHS: All right. And, in requirement for house of worship, one for each three 12 12 fact, the prayers occur on a prayer mat. So, seats. Where the specific amount of seating is 13 13 undetermined, then one parking space shall be 14 therefore, you're basing the parking calculation and 14 the required number of parking spaces is then based required for each 250 square feet of assemblage 15 15 upon the square footage taking into consideration area." So there's not defined seating in the -- in 16 16 those prayer mats? 17 the prayer areas, the congregation hall. 17 THE WITNESS: Yes. When we had submitted an earlier 18 18 ATTORNEY SACHS: Okay. All right. version of the site plan, we had based the parking 19 19 Why don't we proceed. I know there are some other calculation I believe correctly off of that 20 20 requirement for one space per 250 square feet of 21 comments that Mr. Fishinger had. 21 THE WITNESS: I lost track. Do you assemblage area, plus the gymnasium, plus the office 22 22 and so on. And that's where the 113 came from. 23 know what number I was on? 23 ATTORNEY SACHS: I think we were --24 I think that the 300-some number is far 24 beyond what the applicant is going to require. 25 let's see, we were --25 W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 58 Better, of course, than the 900 number from the ITE 1 CHAIRMAN TIGHE: Four. data, but that is what the -- that is what that is 2 THE WITNESS: Four, under "parking." based on. 3 60 to 90 cars was based on information provided by 3 the client, the capacity of two persons per car is So separating that issue from the trip 4 4 generation, we did have traffic data collected at slightly higher than the data collected at other 5 5 sites. But assuming an occupancy of 1.85 persons the existing site when it was in operation. The per car, which is the average of the two sites where size of the building is going to be a lot bigger but 7 I collected data, at 60 to 90 vehicles equates to the congregation is going to be the same. The congregation is anticipated to move from the old 9 111 to 167 persons. 9 site to the new site. It's not a gas station. It's 10 Number 5 under parking: "The TIS 10 11 assumes 90 vehicles in and 90 vehicles out during 11 not a fast food. Nobody is going to decide to stop the Friday midday peak, since two services are in here for Friday prayers because they opened a 12 12 proposed, please provide justification on how the 13 shiny new location. These are the people that are 13 in the area; it's drawn from the surrounding area. proposed 109 space parking lot will accommodate both 14 14 ATTORNEY SACHS: I would just, again, 15 prayer sessions, especially during the 30-minute 15 for the purity of the record. Thank you, 16 period between sessions when one is ending and the 16 17 next is beginning. " Mr. Chairman. 17 The services are relatively short Okay, I didn't mean to cut you off, 18 18 during the middle of the day. The half hour between Mr. Stimmel, so why don't you finish what you were 19 19 sessions is expected to be more than enough to clear 20 saying? I'm sorry. 20 THE WITNESS: So that's how we arrived 21 out the property. 21 at the data we used in preparation for the study. 22 You know, I think this is not an 22 23 uncommon situation at other houses of worship, We do have data collected at two other 23 sites, which we could -- the one that is more of an churches and things, where they have multiple 24 24 apples-to-apples comparison, that was the larger of 25 services in a given day.

W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 59 61 provide that. The next comment, "Additional 1 information or testimony should be provided, 2 THE WITNESS: Comment Number 10 2 relates to additional turning templates. We can regarding the tandem parking spaces under the 3 3 provide that. building." 4 4 Comment Number 11 says, "The site plan 5 5 The tandem parking is limited to six 6 should be revised to accommodate the left turn spaces in the underground parking area, so three 6 prohibition cited in the March 12th TIA update. The sets -- three pairs of two parking spaces. Those 7 7 concrete island is recommended to discourage left are intended for use. The interior spaces will be 8 turns out of the site at this location." used by the Iman and the mosque staff, so they will 9 9 We don't have any issue with providing linger a little bit after the services are over and 10 10 it, obviously, subject to county approval, assuming those won't turn over. 11 11 we can get county to buy in on that driveway 12 "Site plan and internal circulation 12 Comment 7, Sheets 9 and 10 of the site plans include recommendation. 13 13 "Justification for the need for two 14 vehicle-turning templates for the site including a 14 driveways shall be provided, pair of one-way 15 passenger car, garbage truck, SU-30 delivery truck, 15 and fire truck. We recommend that the turning plans 16 driveways may be more appropriate for the proposed 16 be revised to eliminate overlapping paths as it is 17 use." 17 difficult to review." We have no issue making that 18 And again, and I know I've said this a 18 dozen times, we've had a lot of meetings with the revision and we'll provide. 19 19 Number 8, "Based on the information 20 county. We were back and forth with the driveway 20 configurations. We looked at, you know, one provided, it appears that the garbage truck and the 21 21 entrance driveway, one exit driveway. We looked at SU-30 truck cross the driveway centerline to 22 22 eliminating the left turns out of the site. We complete their maneuvers." That is true, that does 23 23 looked at the deceleration lane. We looked at a occur. Obviously the garbage truck and any 24 24 deliveries to the site are going to be occurring 25 plethora of options and this is what ended up being 25 W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 60 62 outside of peak hours, essentially when the site is 1 proposed. 1 2 empty. 2 We felt that the driveway We have the driveway configuration that 3 3 configuration, and I believe the county concurred on we have based on a number of meetings with the 4 this, was the best option to allow site traffic to 4 county as well as CME Associates. This truck 5 disperse quickly to promote safe and efficient 5 access to all areas of the site to improve encroachment with the exiting maneuver is going to 6 6 occur on a very limited basis and we believe it's a circulation and -- and in the occasion that this 7 would occur, to allow for a second access point in better design choice to keep the driveways the way R 8 9 the case of construction or emergency situations. 9 they are. 10 Comment Number 13 talks about the And again, this is something that the 10 connection between the sidewalk along Ernston Road county has given Conditional Approval to, and none 11 11 and the front of the site. I think Mr. Sachs has of those conditions relate to the configuration of 12 12 already indicated that the client is willing to 13 the driveways, I should add. 13 provide this, subject to county approval. Comment Number 9, "Additional 14 14 Comment Number 14 talks about monitors 15 information of testimony should be provided 15 during the Friday services to direct traffic on 16 regarding the likelihood of school buses or charter buses to be on the site and the site layout should 17 site. And then goes on to mention also the police 17 traffic control on-site every Friday. be redesigned accordingly to accommodate buses." 18 18 ATTORNEY SACHS: Well, all right. I 19 So there's two separate groups there, 19 guess I can comment on that point. Right now we 20 there's the police traffic director would be 20 21 uniformed police officer directing traffic from the don't anticipate having any buses. 21 22 roadway. The second is the monitor who is on-site 22 Certainly, Mr. Fishinger, I guess, we can have that conversation with you. If there's an 23 directing people within the subject property as to 23 where they can park, where there's parking area that we can designate as a drop-off area for 24 24

25

any buses in the future, I'm sure we can probably

available, where the lot is full and so on.

It's just going to depend on what works best for people's schedules. But if the situation arises where we have more people attending one service than the other, then there will have to be direction from inside the community to shift to one or the other.	2 3 4 5 6 7 8 9 10 11 12 13	that pedestrians will be able to access our site from their site.  MEMBER ALLEGRE: The last testimony was that there was shuttles, when the school is closed. What shuttles would you be using?  ATTORNEY SACHS: No, I think we spoke about the fact that there would be off-site services for the holidays for Ramadan, I believe we spoke about that. Yes, for Ramadan, we may have to have parking off-site.  MEMBER ALLEGRE: Shuttle over to this?  ATTORNEY SACHS: Yeah.  MEMBER ALLEGRE: So what type of the question would be where your drop off will be.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	spaces. Friday afternoon I got a cop out front directing traffic. You get 140 people to come to the first one and 40 for the second one. What do we do?  THE WITNESS: Fair question. We have got 109 spaces proposed, just to clear it up for the sake of the record.  You know, we anticipate a relatively even distribution. It's just going to depend on what works best for people's schedules. But if the situation arises where we have more people attending one service than the other, then there will have to be direction from inside the community to shift to one or the other.  ATTORNEY SACHS: Mr. Chairman, let me	2 3 4 5 6 7 8 9 10 11 12 13 14	that pedestrians will be able to access our site from their site.  MEMBER ALLEGRE: The last testimony was that there was shuttles, when the school is closed. What shuttles would you be using?  ATTORNEY SACHS: No, I think we spoke about the fact that there would be off-site services for the holidays for Ramadan, I believe we spoke about that. Yes, for Ramadan, we may have to have parking off-site.  MEMBER ALLEGRE: Shuttle over to this? ATTORNEY SACHS: Yeah. MEMBER ALLEGRE: So what type of the question would be where your drop off will be. ATTORNEY SACHS: Yeah, we're going to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	spaces. Friday afternoon I got a cop out front directing traffic. You get 140 people to come to the first one and 40 for the second one. What do we do?  THE WITNESS: Fair question. We have got 109 spaces proposed, just to clear it up for the sake of the record.  You know, we anticipate a relatively even distribution. It's just going to depend on what works best for people's schedules. But if the situation arises where we have more people attending one service than the other, then there will have to be direction from inside the community to shift to one or the other.  ATTORNEY SACHS: Mr. Chairman, let me just follow up on that point as well. We do have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	that pedestrians will be able to access our site from their site.  MEMBER ALLEGRE: The last testimony was that there was shuttles, when the school is closed. What shuttles would you be using?  ATTORNEY SACHS: No, I think we spoke about the fact that there would be off-site services for the holidays for Ramadan, I believe we spoke about that. Yes, for Ramadan, we may have to have parking off-site.  MEMBER ALLEGRE: Shuttle over to this?  ATTORNEY SACHS: Yeah.  MEMBER ALLEGRE: So what type of the question would be where your drop off will be.  ATTORNEY SACHS: Yeah, we're going to have to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	spaces. Friday afternoon I got a cop out front directing traffic. You get 140 people to come to the first one and 40 for the second one. What do we do?  THE WITNESS: Fair question. We have got 109 spaces proposed, just to clear it up for the sake of the record.  You know, we anticipate a relatively even distribution. It's just going to depend on what works best for people's schedules. But if the situation arises where we have more people attending one service than the other, then there will have to be direction from inside the community to shift to one or the other.  ATTORNEY SACHS: Mr. Chairman, let me just follow up on that point as well. We do have the availability of parking on the other at the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	that pedestrians will be able to access our site from their site.  MEMBER ALLEGRE: The last testimony was that there was shuttles, when the school is closed. What shuttles would you be using?  ATTORNEY SACHS: No, I think we spoke about the fact that there would be off-site services for the holidays for Ramadan, I believe we spoke about that. Yes, for Ramadan, we may have to have parking off-site.  MEMBER ALLEGRE: Shuttle over to this?  ATTORNEY SACHS: Yeah.  MEMBER ALLEGRE: So what type of the question would be where your drop off will be.  ATTORNEY SACHS: Yeah, we're going to have to  MEMBER ALLEGRE: Can the bus navigate
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	spaces. Friday afternoon I got a cop out front directing traffic. You get 140 people to come to the first one and 40 for the second one. What do we do?  THE WITNESS: Fair question. We have got 109 spaces proposed, just to clear it up for the sake of the record.  You know, we anticipate a relatively even distribution. It's just going to depend on what works best for people's schedules. But if the situation arises where we have more people attending one service than the other, then there will have to be direction from inside the community to shift to one or the other.  ATTORNEY SACHS: Mr. Chairman, let me just follow up on that point as well. We do have the availability of parking on the other at the church, which is located, I think in Old Bridge if	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	that pedestrians will be able to access our site from their site.  MEMBER ALLEGRE: The last testimony was that there was shuttles, when the school is closed. What shuttles would you be using?  ATTORNEY SACHS: No, I think we spoke about the fact that there would be off-site services for the holidays for Ramadan, I believe we spoke about that. 1	oath from last time.	1	are going to come out of that facility and obviously
2	ADNAN KHAN: First of all, I believe	2	go up or down Bordentown Avenue.
3	that was the biggest concern by the county as well	3	Have you included those calculations in
4	when we were designing this thing, like what kind of	4	your intersection at Ernston Road?
5	vehicles are expected. And it was my understanding	5	THE WITNESS: We performed our latest
6	that they're not anticipating any buses.	6	traffic counts on March 1st, so about two months
7	However, in the front, we have room on	7	ago. Were they was the warehouse open at that
8	the drive aisle that we can do a temporary pickup	8	time?
9	and drop-off, without sacrificing any parking. So	9	Because I contacted the zoning
10	if needed, we can provide temporary short-term	10	department in Sayreville and the zoning department
11	drop-off pickup and drop-off.	11	in Old Bridge and they told me that there were no
12	ATTORNEY SORDILLO: Mr. Sachs, please,	12	new developments in planning or under construction
13	I know the witness has already been sworn in and	13	which would impact traffic along Ernston Road in
14	testified, but we just have to identify who just	14	front of our site. And they were obviously familiar
15	spoke for record.	15	with those
16	ATTORNEY SACHS: Yes.	16	CHAIRMAN TIGHE: The warehouses that
17	ATTORNEY SORDILLO: And confirm that he	17	we're talking about are going to have a Certificate
18	understands he's still under oath.	18	of Occupation within a month or so, they're built,
19	ATTORNEY SACHS: I will.	19	they're ready to go, they're just waiting for the
20	Mr. Sordillo, yes, that was Mr. Adnan	20	okay. So, of course, you hadn't
21	Khan who testified in the April 3rd, 2024, meeting.	21	ATTORNEY SACHS: Right. And,
22	He's a licensed professional engineer. He's the	22	Mr. Chairman, just my knowledge of what probably was
23	project engineer who prepared the site plan.	23	in the deliberations I don't know if it was a
24	And Mr. Khan, just to follow up and	24	zoning board application or a planning board
25	again, I think I told you were still under oath.	25	application, it sounds like it may have been

mosque sites, but the intention for that to address 1 a specific comment from the board's engineer, was to 2 find out the occupancy of vehicles at those other 3 4 mosque sites. 5

We can go back and look at that data and try to parse that and come up with a correlation between the size of the assembly hall for those buildings and the size of the assembly hall for this building, but as I had said before, I don't believe that's an entirely accurate way to project the traffic for the site.

I think part of the issue with it is that you're not talking about a typical business; you're not talking about a gas station or a restaurant. It's not going to be drawing traffic from the existing roadway. People that are coming here are coming here with a purpose; they are people that were going here in '22 because it was the closest available mosque where they could do their Friday prayers.

And that is going to be largely the same. I mean, is there going to be some fluctuation in the congregation over two years? I'm sure there I will be a little bit. But the thought on the applicant's side and, I believe it to be accurate

W. Stimmel, PE, PP, PTOE

76

here, is that the congregation is the congregation. 1 2 If and when this application is approved, the growth will be slow. It is not going 3 to be like you open up a new fast food place and you 4 have a line of 50 cars out onto the state highway 5

because it's the hot new thing. It just doesn't 6 7 work that way.

MEMBER ALLEGRE: Mr. Chairman, it's a beautiful rendition. I would hope to see something like this is well used and well received by all the congregation and the people that come from other areas to come see this as well.

ATTORNEY SACHS: Well, yes, in theory that's great. However, I think we can all accept and acknowledge the fact that there have been a number of mosques that have been built in surrounding towns over the last few years; for instance, Old Bridge recently had an approval for a new mosque. There's another one in South River.

19 So, you know, years ago there weren't 20 too many mosques, quite frankly, in Central New 21 Jersey. There was one in Piscataway. There was one 22

in North Brunswick. There was one in South 23 Brunswick. But over the last few years there have 24 been -- more mosques have been built.

I think the point is, is that the congregants who go to the mosque or were going to 2

the mosque back in 2022 before it closed down, and 3

are now going to this mosque, which is now located elsewhere in Sayreville, are going to be the same 5

ones that are going to go to that mosque, if this 6

boards approves the application, when it is built. 7

I mean, it's just like any other house 8 9 of worship and I think Mr. -- yeah, and I'll get in a second, Adnan -- but I think Mr. Stimmel has 10 indicated that it's not a commercial use. It's not 11 a fast food restaurant. It's not located on

Route 9. It's not going to get pass-by traffic. 13 14 It's a house of worship. That's what it is, plain and simple. 15

Mr. Khan, do you want to add anything? ADNAN KHAN: Yeah, I just wanted to give my experience. I have been involved in close to 15 mosques in New Jersey, and quite a few in Old Bridge, I think two or three, which is the next town over.

Again, based on my experience, and again, I don't know how much it's applicable here, based on my experience, the mosques are started in a town because of necessity, because the closest

W. Stimmel, PE, PP, PTOE

78

mosque is like a few miles away and again, the parishioners are looking for convenience.

1 2

3 So I would say, except for Friday, of course, people within the area might be coming to,

5 attend the Friday prayers, but 95 percent of the

time it's the residents because it's the closest to 6 them. And again, if the congregation grows, and 7

just like in Old Bridge, I think there are, like, 8

three mosques and I think two of them are still 9

working for site plan approvals for two additional 10

mosques, because as a congregation grow --11

congregation grows, they understand the limitation 12

of the mosque that they are going to and what they 13

do is, like, they start -- find a place and try to 14 15 get an approval for a new mosque.

So that's my experience based, like, over the last 20 years.

CHAIRMAN TIGHE: John?

19 COUNCILMAN ZEBROWSKI: Thank you,

20 Mr. Chairman.

16

17

18

Mr. Sachs, actually I do think it is 21 22 relevant for contextual purposes, when you do bring 23 up two -- two examples of other mosques.

24 So what I'm going to ask, and I know 25 you probably don't have this information available,

-		-	
	W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE
	79		81
1	but I really would and I think we would all like	1	THE WITNESS: I don't believe there is
2	to know, the building sizes of the mosques that were	2	one, probably would have to would probably have
3	used as examples, the size of their membership, the	3	to go to the county, I would imagine, to get one
4	parking capacity and any amenities that they may	4	approved at that location.
5	have as well. That may provide some context for	5	COUNCILMAN ZEBROWSKI: Is that
6	this application and I would appreciate it.	6	something that the applicant would do? [Request]
7	[Request]	7	THE WITNESS: Certainly.
8	ATTORNEY SACHS: Councilman, I think	8	COUNCILMAN ZEBROWSKI: Thank you.
9	that's a good suggestion. And I was just talking to	9	THE WITNESS: And I think if it came
10	my traffic expert and we will provide that for you.	10	to the point where the sidewalk was connected the
11	COUNCILMAN ZEBROWSKI: Thank you. I	11	sidewalk connection was provided, as some of the
12	have a second question.	12	board members had commented on and the board's

THE WITNESS: It says, "where the	2 3 4 5 6 7 8 9 10 11	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?
2 3 4 5 6 7 8 9 10 11 12	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I	2 3 4 5 6 7 8 9 10 11 12	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?  THE WITNESS: Well, again, I think it
2 3 4 5 6 7 8 9 10 11 12 13	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I don't take it that way. I take it to be based on	2 3 4 5 6 7 8 9 10 11 12 13	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?  THE WITNESS: Well, again, I think it goes back to the police traffic director; I think
2 3 4 5 6 7 8 9 10 11 12 13	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I don't take it that way. I take it to be based on the seating.	2 3 4 5 6 7 8 9 10 11 12 13	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?  THE WITNESS: Well, again, I think it goes back to the police traffic director; I think they're going to be cognizant of people crossing the
2 3 4 5 6 7 8 9 10 11 12 13 14 15	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I don't take it that way. I take it to be based on the seating.  So if you are thinking of a Catholic	2 3 4 5 6 7 8 9 10 11 12 13 14	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?  THE WITNESS: Well, again, I think it goes back to the police traffic director; I think they're going to be cognizant of people crossing the road.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I don't take it that way. I take it to be based on the seating.  So if you are thinking of a Catholic church, like I'm used to, you count the number of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?  THE WITNESS: Well, again, I think it goes back to the police traffic director; I think they're going to be cognizant of people crossing the road.  There were a few people crossing the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I don't take it that way. I take it to be based on the seating.  So if you are thinking of a Catholic church, like I'm used to, you count the number of seats or count the number of pews and base your	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road.  MEMBER SHAH: And my second question is, like you said, if you make an arrangement with Saint Bernadette's where your parishioners will be crossing the road and coming over, have you calculated that in your traffic study, how that will stop the traffic from flowing on Ernston Road?  THE WITNESS: Well, again, I think it goes back to the police traffic director; I think they're going to be cognizant of people crossing the road.  There were a few people crossing the road under those counts that I watched the video of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	judgment, when applying the data, because not all data sets are created equal.  So, again, if you have 100 data points versus two or three ts, you're on a lot more sound footing with the 100.  VICE-CHAIRMAN MULLER: And in the ordinance, the section that talks about one space for each three seats, do you interpret that to be one parking space per three people, assuming that there's one person per seat?  THE WITNESS: It says, "where the specific amount of seating is undetermined," so I don't take it that way. I take it to be based on the seating.  So if you are thinking of a Catholic church, like I'm used to, you count the number of seats or count the number of pews and base your calculation that way.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	congregation were to double, it wouldn't necessarily it wouldn't likely mean that we would provide double the parking, it would mean that there would be another mosque created somewhere further down the road. 1	traffic expert comes up and says, "no, the real	1	the flooring?
2	number is 113," because I was basing my questions	2	ADNAN KHAN: It depends on the length
3	off your very own parking analysis.	3	and width of the room.
4	So that's the disconnect I have. There	4	MEMBER ALLEGRE: So we don't know the
5	is a potential occupancy of 973 people in the	5	ATTORNEY SACHS: Mr. Allegre, what
6	worship area and the question is, what is the	6	we're going to provide for you is
7	sufficient parking for that potential maximum	7	ADNAN KHAN: Provide a sample.
8	occupancy?	8	ATTORNEY SACHS: Let me finish. We're
9	ATTORNEY SACHS: And maybe I can	9	going to provide a layout and we're going to show
10	respond to that, and maybe there is an error on the	10	exactly where those destinations will be so that you
11	actual Page 1 of the site plan, which is going to	11	will know exactly how many parishioners will be
12	have to be corrected, but the testimony for	12	inside that ritual room.
13	consideration by this board is what Mr. Stimmel	13	MEMBER ALLEGRE: Do you have an
14	testified to today, that the parking calculation,	14	estimated number of architectural designs that you
15	because there are no seats in the mosque, all right,	15	already
16	it has to be based on square footage and we'll	16	ATTORNEY SACHS: We're going to
17	get that number, as Mr. Sordillo asked, as to how we	17	provide that based upon the square footage of this,
18	calculated the 113.	18	of this ritual area. And we'll provide that for
19	VICE-CHAIRMAN MULLER: I think it was	19	you. [Request]
20	14,941 square feet in the worship area, so I think	20	MEMBER ALLEGRE: So I think that's
21	that's where it comes from, but I'm not testifying.	21	maybe some of the issue that everyone is having,
22	THE WITNESS: Yes, that's it, 14,941.	22	right; you don't know how many you're going to have,
23	MEMBER ALLEGRE: A question for	23	but yet you have the engineering behind it completed
24	Mr. Khan.	24	already.
25	Can you describe the wall-to-wall	25	ATTORNEY SACHS: Well, no. We know

2 3 4 5 6	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will	2 3 4 5 6	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.
2 3 4 5 6 7	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet	2 3 4 5 6 7	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the
2 3 4 5 6 7 8	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet	2 3 4 5 6 7 8	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture
2 3 4 5 6 7 8	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then	2 3 4 5 6 7 8	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people
2 3 4 5 6 7 8 9	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each	2 3 4 5 6 7 8 9	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.
2 3 4 5 6 7 8 9 10	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each row will be further marked with some kind of	2 3 4 5 6 7 8 9 10	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural
2 3 4 5 6 7 8 9 10 11	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each row will be further marked with some kind of architectural feature, Islamic architectural feature	2 3 4 5 6 7 8 9 10 11	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural plan
2 3 4 5 6 7 8 9 10 11 12 13	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked — I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section — I don't want to say section — each row will be further marked with some kind of architectural feature, Islamic architectural feature to designate each space so that a person can come	2 3 4 5 6 7 8 9 10 11 12 13	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural plan  MEMBER OF THE AUDIENCE: Don't talk to
2 3 4 5 6 7 8 9 10 11 12 13	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each row will be further marked with some kind of architectural feature, Islamic architectural feature to designate each space so that a person can come and stand in there.	2 3 4 5 6 7 8 9 10 11 12 13 14	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural plan  MEMBER OF THE AUDIENCE: Don't talk to us disrespectfully.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each row will be further marked with some kind of architectural feature, Islamic architectural feature to designate each space so that a person can come and stand in there.  So I would say it's about like 3 feet	2 3 4 5 6 7 8 9 10 11 12 13	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural plan  MEMBER OF THE AUDIENCE: Don't talk to us disrespectfully.  CHAIRMAN TIGHE: Listen, all I'm
2 3 4 5 6 7 8 9 10 11 12 13 14 15	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each row will be further marked with some kind of architectural feature, Islamic architectural feature to designate each space so that a person can come and stand in there.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural plan  MEMBER OF THE AUDIENCE: Don't talk to us disrespectfully.  CHAIRMAN TIGHE: Listen, all I'm asking you is for you to be respectful, that's all.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Let's say it's a carpet like this, so what it is, like again, everybody who comes to the mosque for praying, they have to stand in a straight line. So they will stand in a straight line, you will see the carpet like this marked I would say 4, 4-and-a-half-feet long, and then there will be these lines. And then each section I don't want to say section each row will be further marked with some kind of architectural feature, Islamic architectural feature to designate each space so that a person can come and stand in there.  So I would say it's about like 3 feet by 5 feet on an average.  MEMBER ALLEGRE: Does the entire room	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	how big the ritual area is. We know that the and I don't want to use the term, "prayer mat" because in the older mosques which aren't as modern as the one that's being proposed, everybody would bring in their own prayer mat, and usually they're probably 3-by-5, 3-by-6.  ADNAN KHAN: And I think the architecture  CHAIRMAN TIGHE: We can't have people talking.  ADNAN KHAN: I think the architectural plan  MEMBER OF THE AUDIENCE: Don't talk to us disrespectfully.  CHAIRMAN TIGHE: Listen, all I'm
2 3 4 5 6 7 8 9 10 11 12 13 14 15	carpet for us, please; there's an architectural design in the carpet?  ADNAN KHAN: Yes. Apologize, go ahead.  ADNAN KHAN: The architectural plan, if I remember right, it shows the layout of the prayer area with those rectangles marked on the plan

W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 95 97 MEMBER ALLEGRE: On the architectural ENGINEER FISHINGER: And going back 1 1 one discussion, am I correct that you said you were 2 plan? going to provide a plan -- I don't believe it's ADNAN KHAN: I belive it is. 3 3 4 ATTORNEY SACHS: I believe it is, yes. 4 shown on the architectural plans -- but a layout that says -- shows roughly how much space each 5 And if it's not, we'll provide it for you. ATTORNEY SORDILLO: Mr. Chairman, just member takes for prayer and work out the math to 6 to follow up, I did have one second clarification give us a number so then we can base the occupancy 7 point, because during the testimony between the last of the building and parking requirements along those 8 meeting and this meeting, I just want to clarify for 9 -- along that information? [Request] 9 ATTORNEY SACHS: Yes, Mr. Fishinger, my purposes, for clarity of the record and for a 10 10 11 future resolution. 11 we'll provide that. ENGINEER FISHINGER: Okay, And I'm There was testimony that for certain 12 12 large events and holidays there was going to be going to go back through my memo and I'll skip over 13 13 the stuff that Mr. Stimmel has addressed or the off-site parking, that they were going to shuttle 14 14 board members have already asked for. the individuals, the worshippers in, and shuttle 15 15 them out potentially. But then, I believe tonight Going back to the beginning under the 16 16 there was some testimony that for large events traffic counts, Bill, I was a little unclear, were 17 17 you agreeable to doing an ATR count or something to 18 they're actually going to be holding the events 18 establish the typical commuter peak hours for 19 19 So I'm confused which is which, and I Ernston Road, or was that something you're not 20 20 think we need to have some clarification on that. agreeing to do? 21 21 22 MEMBER OF THE AUDIENCE: Thank you. 22 [Request] ATTORNEY SACHS: I think it's -- by THE WITNESS: Well, we are agreeable 23 23 to a lot of things. We have done a lot of traffic the way, Mr. Sordillo, we got the transcript just 24 24 counts in support of this application. I will spend 25 today -- or yesterday from the last hearing. My 25 W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 98 96 recollection, and I will provide that for you, but 1 all of my client's money if you let me. We believe my recollection is that for the two or three major the data provided addresses the concerns between the 2 different counts we provided and the data from the holidays, maybe four major holidays, everything is 3 3 DOT. off-site. It would be at the park. 4 4 Ultimately, as I said, if the board 5 Ramadan would be at this particular 5 requires it, we'll do the ATR data. site, and that is where you could get a larger 6 6 ENGINEER FISHINGER: And for the 7 attendance and that's where, potentially, we would 7 be utilizing Saint Bernadette's, or having shuttle board's information, the reason I'm asking for that 8 8 buses, if there's another site that we need to do. is not so much for the Friday afternoon facility, 9 But I will -- I will look in the I'm in general agreement with the volumes that 10 10 Mr. Stimmel has provided. My concern is the site is transcript and get you the exact testimony as to 11 11 open during typical rush hour Monday through Friday. that. 12 12 ENGINEER FISHINGER: Thank you. While That may not be for prayer service but 13 13 we're on that subject, I'll start with that 14 14 there's still a basketball court, a running track, other amenities that presumably will generate some question. 15 15 Would you be amenable to providing some traffic, I don't -- at this point, I don't know how 16 16 much. sort of a traffic management plan so there's sort of 17 17 a guideline as to say, on this holiday, this is what 18 And presumably Ernston Road is going to 18 be at its busiest at typical rush hour on 5:30 on a 19 we plan to do? [Request] 19 Just so that there's something, whether Wednesday or whatnot, so my concern is not so much 20 21 it's the zoning department or the police department, 21 that it's the busiest hour for the mosque but my they have something they can rely on and say, okay, concern is if you take the busiest hour for Ernston 22 22 on Ramadan this is supposed to happen, on this Road and put whatever traffic this site is expected 23 23 to generate on top of it, will the driveway still 24 holiday that is supposed to happen. 24 work? Will Ernston Road still operate effectively? 25 ATTORNEY SACHS: Yes.

W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 99 101 prayer services on Friday. Is there -- how long do When we have an office building or a 1 2 residential, something that you -- typically an you expect it to take for the parking lot to flip office building peaks at the same time that the road 3 3 does, so we only can do one set of counts. In this 4 My concern is, you know, in that 4 half-hour period the 90 cars you have for -- coming case, the site and the road don't peak at the same 5 5 time. That's why I want to see when the road is for the first service, leaving, and the 90 cars 6 6 7 coming in for the second, they're not all going to 7 going to peak. And if you want to do the counts magically appear and disappear at once. I'm 8 8 assuming some people are going to walk out of the 9 manually, or count them as the road tubes, the 9 first prayer service, get in their car and drive method, as long as it's the typical traffic 10 10 engineering method, I don't care. I'm thinking road away immediately. And some others may take a few 11 11 minutes, either they're going to be chatting with tubes are probably the most cost-effective, but 12 12 friends outside, or not necessarily talking to that's for you to decide. 13 13 someone else at the facility. THE WITNESS: Yeah, I know one of the 14 14 15 members of the public seemed to be a fan of the road Do you have any information on how long 15 tubes, from reading the transcript. We'll take a 16 16 that turnover will take? Because with -- if you have 90 cars leaving and 90 cars coming in within a look at it. 17 17 18 We'll provide seven days of ATR data 18 half an hour, how do all of them park on-site with with a directional split? 19 only 109 spaces? 19 ENGINEER FISHINGER: That would 20 THE WITNESS: Yeah, we understand the 20 probably settle the issue one way or the other. concern there. From reviewing the video data at the 21 21 22 Like I said, whether it's road tubes or site in '22, which obviously was a larger volume and 22 23 cameras or radar, as long as -- they're all typical. the layout was not optimal, I wouldn't say, it took 23 about 15 minutes for traffic to disperse from the It may make more sense to put a camera out for a 24 24 service. You know, you had a few stragglers, let's 25 week than a road tube. 25 W. Stimmel, PE, PP, PTOE W. Stimmel, PE, PP, PTOE 102 100 say, but the majority of people were out of there THE WITNESS: We'll provide the data, 1 pretty quickly, I would imagine, ready to resume the means to be determined. But we'll have it ready 2 and submit it to the board and Mr. Fishinger for a their day. So we can go back and look at that and 3 review. [Request] tighten that number up. 4 5 ENGINEER FISHINGER: And then you said 5 Again, it's not going to be a direct you were able to go back to look at your video apples-to-apples because the site layout is 6 6 7 counts from '22. different and it's higher occupancy at that single holiday service than there will be on a typical Is that something you can provide to 8 8 the board, a download link or something to that 9 Friday, but it should give the board a good 9 video? [Request] 10 understanding. 10 THE WITNESS: Somebody is probably We could possibly look at how long it 11 11 takes to get 90 cars, let's say, out of the driveway 12 going to need to help me with the technical side of 12 and make that the number. it, but I think we can do it. The file is pretty 13 13 big so it's difficult to email but... 14 ENGINEER FISHINGER: And I won't get 14 ENGINEER FISHINGER: I'm sure between 15 into the technical details because honestly, Bill, 15 you're probably the only person in this room that -- my office does traffic counts all the time, I'm 16 16 understands this, after that review I would ask you sure between us we can work it out. 17 17 THE WITNESS: Yeah, sure. to review the peak hour factors in your analysis. 18 18 ENGINEER FISHINGER: Skipping up, I 19 19 Because I'm concerned with the traffic -- if all the traffic is moving in that shortened period, the peak think Number 5, it sounds like there were some 20 20 warehouses that the board members brought up. It hour factors you're using may not be appropriate. 21 21 sounds like you already agreed to look into that. 22 [Request] 22 THE WITNESS: Yes. 23 And for the board, very quickly, the 23 ENGINEER FISHINGER: Then the next peak hour factor is a measure of how condensed 24 24 within that hour, cars show up or leave. If all of thing I want to talk about is the whole idea of two 25

1	THE WITNESS: I would not want to tell	1	THE WITNESS: And again, it would be if
2	them how to do their jobs.	2	their experience and understanding of the situation
3	MEMBER LAHRMAN: Okay.	3	permits it. For whatever reason on a certain date
4	THE WITNESS: They're going to direct	4	or a certain time they say you can't make lefts out
5	traffic the way they feel is best.	5	today, then they would direct the people
6	MEMBER LAHRMAN: I'm just saying that	6	accordingly.
7	I drive the road and, you know, it's very difficult	7	MEMBER LAHRMAN: Okay.
8	not a lot of people are courteous to let you just	8	VICE-CHAIRMAN MULLER: Mr. Chair?
9	pull out onto Ernston Road when you're coming down	9	CHAIRMAN TIGHE: Go ahead.
10	the road.	10	VICE-CHAIRMAN MULLER: This application
11	So I would assume they're going to have	11	was presented to us as requiring a variance that
12	to stop the traffic to let people exit out of the	12	required 377 parking spaces to a proposed 109
13	facility onto Ernston Road. How many cars do you	13	parking spaces. Based upon the testimony of their
14	think you can have from the facility to the corner	14	traffic expert, that now has gone down from 377
15	of Bordentown? Did anyone ever, like, take a study	15	spaces required, to 113. That is a very significant
16	of that?	16	drop in the number of spaces.
17	THE WITNESS: It's about 500 feet from	17	I believe, we, as a board, need to know
18	the western eastern site driveway to where	18	what the ordinance requires, if there's any
19	Bordentown Road widens out. So that's about	19	interpretation or whatnot, what is the actual number
20	25 cars. And then it's maybe another 200 feet from	20	of required parking spaces so that we can consider
21	there to the light where you have the two or	21	that in whether to grant the variance. And I don't
22	three-lane section. So you could fit maybe another	22	know if our professionals have any input into that?
23	25 or 30 there. So you're somewhere in the	23	I mean, I read it and I interpret one
24	neighborhood of 45, 50 cars, I would say.	24	space for each three seats to mean one space, one
25	CHAIRMAN TIGHE: All right, guys,	25	parking space for every three adults, but that's

So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?	2 3 4 5 6 7 8 9 10 11 12 13	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in
2 3 4 5 6 7 8 9 10 11 12 13 14	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the	2 3 4 5 6 7 8 9 10 11 12 13 14	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with
2 3 4 5 6 7 8 9 10 11 12 13 14 15	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown	2 3 4 5 6 7 8 9 10 11 12 13 14 15	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of traffic leaving	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of lefts,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate that the occupancy of your prayer area be utilized
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of traffic leaving the site would follow the distribution of lefts, throughs and rights as you approach Bordentown. So	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate that the occupancy of your prayer area be utilized with that one-space-per-three calculation.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of traffic leaving the site would follow the distribution of lefts, throughs and rights as you approach Bordentown. So that's how we distributed the site traffic there.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate that the occupancy of your prayer area be utilized with that one-space-per-three calculation.  The occupancy numbers were generated, I
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of traffic leaving the site would follow the distribution of lefts, throughs and rights as you approach Bordentown. So that's how we distributed the site traffic there.  MEMBER LAHRMAN: Okay. So the police	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate that the occupancy of your prayer area be utilized with that one-space-per-three calculation.  The occupancy numbers were generated, I believe, by the architect. There was a plan
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of traffic leaving the site would follow the distribution of lefts, throughs and rights as you approach Bordentown. So that's how we distributed the site traffic there.  MEMBER LAHRMAN: Okay. So the police officers will then allow some of the cars exiting to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate that the occupancy of your prayer area be utilized with that one-space-per-three calculation.  The occupancy numbers were generated, I believe, by the architect. There was a plan submitted that indicated 973 occupants in the three
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	let's keep it down. You are going to have your chance in a second. Thank you.  MEMBER LAHRMAN: So that's assuming that the cars split lanes I'm sorry, so that's assuming that the cars when they exit are not all going in the same direction because there's two lanes going straight or you can make a right and then there's one lane that makes a left.  THE WITNESS: Right.  MEMBER LAHRMAN: So you would be splitting lanes there, correct?  So you would be splitting up the traffic exiting to go towards Bordentown to the intersection?  THE WITNESS: Right. When we did the traffic study we looked at the counts at Bordentown and assumed that the distribution of traffic leaving the site would follow the distribution of lefts, throughs and rights as you approach Bordentown. So that's how we distributed the site traffic there.  MEMBER LAHRMAN: Okay. So the police officers will then allow some of the cars exiting to make lefts out of the facility, correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	just my interpretation.  I would like to know if our professionals have any view on what is the required number of parking spaces for this application.  ENGINEER CORNELL: Mr. Muller, I can address that.  Our office was of the opinion that the standard that you have are not appropriate for this use; one space for three seats is not appropriate because they don't have seats. One space for 250 square feet is not appropriate for this type of use, based upon the prayer services that they utilize.  What has been done in other towns in other applications our office has been involved with has been occupancy. So we presented that to the applicant, indicating we felt it more appropriate that the occupancy of your prayer area be utilized with that one-space-per-three calculation.  The occupancy numbers were generated, I believe, by the architect. There was a plan submitted that indicated 973 occupants in the three prayer areas.

	119	1	the there are currently the mosque has 100
1 2	so CHAIRMAN TIGHE: All right.	2	patrons, and I don't know I don't remember the
3	All right, it's 9:30. 9:35 we will	3	exact number, but this is what Mr. Khan had
4	start up. Five minutes.	4	testified, the congregation is roughly 300.
5	start up. Tive minutes.	5	And at the last meeting I had brought
6	(Whereupon, a recess is taken.)	6	it up that the house of worship, the prayer hall
7	(Wild capally a recess is taken)	7	itself, based on building code, has a capacity of
8	(Time noted, 9:37 p.m.)	8	667 people. I don't know where the 900 came from;
9	(Time noted, 5157 pinn)	9	I'll stick to the 667.
10	ATTORNEY SORDILLO: Excuse me,	10	What I fail to understand is if the
11	everyone, while we are the public is now going to	11	house of worship can accommodate 667 patrons at one
12	we're first going to have our township planner	12	time, then why would 109 parking spaces be adequate
13	for Old Bridge be the first one to ask their	13	to address that much crowd?
14	questions, but as we invite everybody up to ask the	14	And I just can't understand because as
15	questions of the professional who testified tonight,	15	a planner, when you plan, you plan for the future,
16	I just want to remind a few things:	16	you're planning you're designing a building that
17	One, this is not the public comment	17	can accommodate much more patrons. So then why
18	section, this is still the questions. So the	18	would you not provide the services, like the
19	questions need to be of the witness of this	19	parking, for that many people?
20	testimony, and his testimony that he gave this	20	And if you don't have the adequate land
21	evening.	21	to provide that, why wouldn't you shrink the house
22	You will be provided a time to provide	22	of worship?
23	your own comments, your own opinions as to this	23	I kept hearing I kept hearing
24	application at a later time. That occurs at the end	24	that the congregation will not grow. I kept hearing
25	of the application. But you are, at this point,	25	Old Bridge, and I kept hearing that there are house
	W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE
	120		122
1	allowed to provide questions to the witnesses that	1	of worships in Old Bridge that are currently being
2	are here on provided testimony.	2	worked on. Yes, there are. There is a house of
3	Tonight we had the traffic engineer.	3	worship on Route 35 where the applicant the
4	And we did have some testimony from their general	4 5	engineer is working with us. That was approved ten years ago and has expanded. But that's Route 35,
5	engineer. So you can ask those questions relating to the testimony that was provided.	6	it's not Ernston Road, that's a state highway. So
7	Second, for recordkeeping purposes,	7	something to be noted.
8	when you come up to the mic, can you please state	8	The house of worship on Morristown
9	your full name and spell it for the court reporter,	9	Road, I don't even know if at this point that is a
10	as well as provide your address. That will help	10	valid application. It was adjourned multiple times.
11	keep the record clean and make sure that your	11	I would like the applicant to reach out
12	comments are fully being taken into account and kept	12	to the planning office and work with us to get the
13	in the record.	13	data.
14	So, once again, when you get up the	14	There is a problem I'm having with a
15	chairman will invite people up as they're taken,	15	facility on Spring Valley Road which has gone
16	giving everyone a chance to get up, taking turns.	16	through expansion over years, does not have the
17	When you get up, we need your full name, spell it	17	capacity to hold that many cars, and I have been
18	for the court reporter's purposes, and provide your	18	issuing Notices of Violation.
19	address.	19	So for me it's very hard to believe
20	Thank you.	20	that a congregation will not grow. Let's accept
21	CHAIRMAN TIGHE: Ma'am, go ahead.	21	that it might grow over a period of time, and then
22	VEENA SAWANT: Veena Sawant, Planning	22	address any site issues that may be there.
23	Director, Old Bridge Township.	23	So I don't understand. And the
24	Question. So tonight I've been hearing	24	question is why are you so confident that the
25	and especially from the last meeting, I heard that	25	congregation R congregation will not grow?

	W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE
	123		125
1	And why is, if it's not going to grow,	1	seven days a week, so if you use it for, you know, a
2	then why is the building or the house of worship	2	few hours on Friday for worshipper services, it's
3	area, the prayer hall 10,000 square feet?	3	there radiating heat the rest of the week and
4	Why can't it be reduced?	4	causing storm runoff.
5	ATTORNEY SACHS: Is that the question;	5	So, there's a danger to having too many
6	why it can't be reduced?	6	parking spaces too.
7	Well, I think I can respond to	7	VEENA SAWANT: Mr. Stimmel, I think
8	Ms. Sawant. This is the application that is in	8	the capacity I was talking about is not the capacity
9	front of this board this evening, and was in front	9	to include the excess reuses; I did not mention the
10	of the board on April 3.	10	gym, the multipurpose room or any of the other
11	I appreciate Ms. Sawant's comments	11	amenities. I was strictly talking about the prayer
12	because that's primarily what it was, were comments.	12	hall. The prayer hall can accommodate 600-plus
13	But, Mr. Stimmel, if you want to	13	people, and I'm only talking about that.
14	address the and I think you have several times	14	I do understand that RLUIPA covers the
15	this evening address the issue of how you	15	other accessory uses, so I'm strictly focusing on
16	determined what the parking calculation should be,	16	the house of worship.
17	certainly you can give Ms. Sawant the benefit of	17	And again, just a comment, when you
18	your answer.	18	reach out to the church for the Old Bridge for
19	THE WITNESS: Sure. I think the first	19	Old Bridge Township, I would love to be a part of
20	thing that I think the first thing that needs to	20	it, the conversation, because I am not sure that the
21	be reiterated is that the application has this	21	church has adequate parking either.
22	sanctuary area, the worship hall, it has the	22	ATTORNEY SACHS: I don't have any
23	classrooms, it has the basketball court, et cetera,	23	response to Ms. Sawant.
24	but the applicant has been clear all along that it's	24	VEENA SAWANT: Thank you, board, thank
25	only going to be the sanctuary area that is in use	25	you for your time. I will be back for the planner.

Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	W. Stimmel, PE, PP, PTOE  124  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	W. Stimmel, PE, PP, PTOE  124  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a reciprocal agreement with Saint Bernadette's Church	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by nine square, you can fit 1,660 people in that place.
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	W. Stimmel, PE, PP, PTOE  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a reciprocal agreement with Saint Bernadette's Church on the other side of Ernston Road to use their	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by nine square, you can fit 1,660 people in that place.  That's all I want to say. That's
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	W. Stimmel, PE, PP, PTOE  124  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a reciprocal agreement with Saint Bernadette's Church on the other side of Ernston Road to use their parking when they're not using it and vice-versa.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by nine square, you can fit 1,660 people in that place.  That's all I want to say. That's future growth. Because if you have people come in,
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	W. Stimmel, PE, PP, PTOE  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a reciprocal agreement with Saint Bernadette's Church on the other side of Ernston Road to use their parking when they're not using it and vice-versa.  So for all those reasons we believe	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by nine square, you can fit 1,660 people in that place.  That's all I want to say. That's future growth. Because if you have people come in, they're not turning them back. So we need to look
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	W. Stimmel, PE, PP, PTOE  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a reciprocal agreement with Saint Bernadette's Church on the other side of Ernston Road to use their parking when they're not using it and vice-versa.  So for all those reasons we believe that the parking supply is appropriate. Certainly	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by nine square, you can fit 1,660 people in that place.  That's all I want to say. That's future growth. Because if you have people come in, they're not turning them back. So we need to look at future growth which is going to be important
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	W. Stimmel, PE, PP, PTOE  during those prayer services. So I think right there that reduces the occupancy of the building.  You know, we have looked at the parking calculations in the ordinance. Mr. Cornell and some of the board members took a slightly different tack on it, but we feel that applying the standard based on the area, square footage of the congregation hall, is more appropriate than the per-person occupancy, the ITE data, the number of seats as it were.  So we believe that the parking provided is appropriate for the use under the majority of circumstances. The larger events the applicant has already stipulated would be moved off-site. We're providing two services, it doubles the parking provided on the subject property. And the applicant, as I understand it, has in place a reciprocal agreement with Saint Bernadette's Church on the other side of Ernston Road to use their parking when they're not using it and vice-versa.  So for all those reasons we believe that the parking supply is appropriate. Certainly we wouldn't want to provide parking beyond what we	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Thank you.  CHAIRMAN TIGHE: Thank you very much for coming.  All right, spell your name, go to the mic. Three minutes.  DON SCARANO: Don Scarano, Frederick Place, S-C-A-R-A-N-O.  (Stenographer clarification.)  DON SCARANO: Frederick Place, that's good enough. Thank you.  CHAIRMAN TIGHE: Sayreville.  DON SCARANO: So I had a quick question. I ain't no slick-talking lawyer or engineer or whatever but, common sense, 14,941 square feet, you got nine square feet, you got a four and a half by two-foot, you're in this 14,941-square-foot place. If you divide that by nine square, you can fit 1,660 people in that place.  That's all I want to say. That's future growth. Because if you have people come in, they're not turning them back. So we need to look at future growth which is going to be important because anybody can build anything, but if we're not
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	W. Stimmel, PE, PP, PTOE  during those prayer services. So I think right there that reduces the occupancy of the building. 	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the	2	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so
2 3 4	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will	2 3 4	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so Mr. Sachs, I'm talking. I would like
2	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to	2 3 4 5	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.
2 3 4	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't	2 3 4 5 6	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you
2 3 4 5	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that	2 3 4 5 6 7	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of
2 3 4 5 6 7 8	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?	2 3 4 5 6 7 8	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one,
2 3 4 5 6 7 8	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can	2 3 4 5 6 7 8	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of
2 3 4 5 6 7 8 9	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It	2 3 4 5 6 7 8 9	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.
2 3 4 5 6 7 8 9 10	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon	2 3 4 5 6 7 8 9 10	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used
2 3 4 5 6 7 8 9 10 11	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and	2 3 4 5 6 7 8 9 10 11 12	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick
2 3 4 5 6 7 8 9 10 11 12 13	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a	2 3 4 5 6 7 8 9 10 11 12 13	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the
2 3 4 5 6 7 8 9 10 11 12 13	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.	2 3 4 5 6 7 8 9 10 11 12 13	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in
2 3 4 5 6 7 8 9 10 11 12 13 14	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just	2 3 4 5 6 7 8 9 10 11 12 13 14	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.  ATTORNEY SACHS: in Somerset. We
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.  And also our board engineer also	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.  ATTORNEY SACHS: in Somerset. We did not look at the Edison mosque.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.  And also our board engineer also advised that there's also another methodology of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.  ATTORNEY SACHS: in Somerset. We did not look at the Edison mosque.  Certainly we can look at it. There are
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.  And also our board engineer also advised that there's also another methodology of calculating parking requirements based upon	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.  ATTORNEY SACHS: in Somerset. We did not look at the Edison mosque.  Certainly we can look at it. There are a number of mosque in the area. Some of them are
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.  And also our board engineer also advised that there's also another methodology of calculating parking requirements based upon occupancy.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.  ATTORNEY SACHS: in Somerset. We did not look at the Edison mosque.  Certainly we can look at it. There are a number of mosque in the area. Some of them are larger, some of them are
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.  And also our board engineer also advised that there's also another methodology of calculating parking requirements based upon occupancy.  So the board hasn't accepted any	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison.  ATTORNEY SACHS: Well, again, we used we utilized the data for the East Brunswick mosque, which is very close by, and also the where was the other mosque, in  NIKKI VOCCIO: It's not comparable.  ATTORNEY SACHS: in Somerset. We did not look at the Edison mosque.  Certainly we can look at it. There are a number of mosque in the area. Some of them are larger, some of them are smaller, some of them are located in different types of neighborhoods.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Voccio, V-O-C-C-I-O. I live at 12 Dunlap Drive in Parlin, New Jersey.  So to the board I want to ask the question, because we can't do any testimony, will you actually are you actually going to be able to accept their proposed parking because they don't have actual seats but prayer places instead; is that something you're willing to accept rationally?  ATTORNEY SORDILLO: Mr. Chair, I can speak to that. Our ordinance provides for that. It does allow for a calculation of parking based upon situations where seating is not provided for and NIKKI VOCCIO: So let me ask you a question.  ATTORNEY SORDILLO: Well, let me just finish the response.  And also our board engineer also advised that there's also another methodology of calculating parking requirements based upon occupancy.  So the board hasn't accepted any specific methodology yet. I'm just advising that	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	comparison, instead of using the current numbers that they're using, which is a 15,000-square-foot mosque and an 11,000-square-foot mosque so  Mr. Sachs, I'm talking. I would like to be acknowledged when I'm asking you a question.  So the question is why are you comparing a mosque that is a fourth of the size of this one, and a third of the size of this one, instead of using double of what half of the size of the one is in Edison. 1	again which mosque in East Brunswick you're	1	the last prayer service, or is that when the
2	referring to?	2	building's closed?
3	ATTORNEY SACHS: Yeah, Mr. Weingarth,	3	ATTORNEY SACHS: I think, my
4	it's the mosque on Dunham's Corner Road is the one	4	recollection at the last hearing was I think we said
5	we analyzed.	5	all activities would cease by that last service,
6	DREW WEINGARTH: And that's what I	6	which again is based seasonally, but it's around
7	thought. I do believe there are two mosques in East	7	8:30.
8	Brunswick.	8	CAROL ESPOSITO: Is that the beginning
9	ATTORNEY SACHS: There are.	9	of the service or end?
10	DREW WEINGARTH: One on New Brunswick.	10	ATTORNEY SACHS: No, the end. It
11	ATTORNEY SACHS: Correct, there's one	11	depends on the time of the year, but generally it
12	on New Brunswick Avenue, which is under	12	would be
13	construction.	13	CAROL ESPOSITO: Okay, so based on the
14	DREW WEINGARTEN: Correct, so you're	14	times of the year, in March and April of 2024 prayer
15	saying sorry, so you're saying its under	15	times began at 5:10 a.m. and end approximately 8:50
16	construction and not it's not open yet?	16	p.m. or 9:00 p.m., with prayers beginning as early
17	ATTORNEY SACHS: It's not open yet.	17	as 3:48 a.m. in June all of May, June, July,
18	DREW WEINGARTH: Thank you for that.	18	August, September, half of October, most of
19	And it's near Rue's Lane if I remember correctly.	19	November, December, January, February, and March
20	If it's going to be used as a	20	of 2025, prayer times begin before 6:00 a.m., and
21	comparison, that mosque, it is in a unique situation	21	the evening prayers in March, April, May, June, July
22	in a more I would think I would compare the	22	August, and most of September would begin after
23	mosque on New Brunswick Avenue more in relationship	23	8:00 p.m.
24	than the one off New Dunham's Road for the board's	24	So I'm trying to understand the prayer
25	consideration. It's more of again, it's more	25	times and your hours of operation.

1	CAROL ESPOSITO: So there I can agree	1	for a one-way in/one-way out scenario, like a church
2	there's no projects for Sayreville or Old Bridge on	2	any other church has, like any other place of
3	that plot of Ernston Road because there's nowhere to	3	worship. I think people coming and going out of two
4	put anything; however, there are projects in the	4	entrances and exits not far from one another, is
5	vicinity which could greatly impact the traffic in	5	just people are going to get in each others way.
6	the area. So that might be something everyone needs	6	It doesn't make sense just logically.
7	to look into.	7	The way they're proposing this is going
8	THE WITNESS: That's what I asked.	8	to work, it's not going to work. Ernston Road now
9	That's the answer I got.	9	today got backed up almost all the way to the
10	Certainly we understand from the	10	Route 9 and there's no activity at the mosque
11	board's comments the warehouse project and we're	11	right now, other than them dumping bricks today;
12	going to look into that, and might follow up again	12	they're dumping debris back there.
13	with the two zoning officers and follow up just on	13	Oh, by the way, for the record, nothing
14	other projects in general.	14	was demolished. He mentioned buildings were
15	CAROL ESPOSITO: Thank you.	15	demolished; the tent is still up, they're using it
16	CHAIRMAN TIGHE: You're welcome.	16	as storage, okay. So people are in and out.
17	VICE-CHAIRMAN MULLER: Mr. Chairman	17	I know, testimony, right?
18	CHAIRMAN TIGHE: Name	18	ATTORNEY SORDILLO: Yeah, just a
19	JOSEPH KARMAZIN: Good evening. My	19	reminder
20	name is Joseph Karmazin, that's K-A-R-M-A-Z-I-N. I	20	JOSEPH KARMAZIN: I've got to sneak a
21	live at 322 Ernston Road. I am a direct neighbor of	21	couple in there.
22	the mosque.	22	ATTORNEY SORDILLO: Hold on. Hold on.
23	VICE-CHAIRMAN MULLER: I just want to	23	No, no, please, please, let me finish.
24	make sure folks coming up to the mic know that it's	24	Just so everyone is aware, I understand
25	a question-and-answer period. Some of the people	25	that there are going to be sometimes you can't

So that's why we want to make sure you're aware of these procedures because the board wants to be able to consider your comments, and if you do them now, we can't.  JOSEPH KARMAZIN: Okay. I get it. I
3 4 5 6 7 8 9 10 11 12 13 14 15 16	be considered.  So I just want to make sure that you understand that because I think that people understand that. Ms. Esposito came up and had some specific firsthand testimony that she wanted and it's not going to be part of the record unless folks are sworn in at the end of the at the public portion comment.  So I just want to let people know that so that you don't think it's on the record because you say it now. It's not; you have to come back at the end. Okay?  JOSEPH KARMAZIN: Yeah, copy that. Okay, April 22nd analysis had 180 vehicles on-site and with the 109 proposed spots it	3 4 5 6 7 8 9 10 11 12 13 14 15 16	JOSEPH KARMAZIN: Right. ATTORNEY SORDILLO: We understand that. But, once again, you know, with testimony or any comments that you are going to make, even if you make them now, they're not going to be, as the board member said, they won't be part of the record. The board won't be able to consider them until you do it at the end.  So that's why we want to make sure you're aware of these procedures because the board wants to be able to consider your comments, and if you do them now, we can't.  JOSEPH KARMAZIN: Okay. I get it. I get it.  So the question is
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	be considered.  So I just want to make sure that you understand that because I think that people understand that. Ms. Esposito came up and had some specific firsthand testimony that she wanted and it's not going to be part of the record unless folks are sworn in at the end of the at the public portion comment.  So I just want to let people know that so that you don't think it's on the record because you say it now. It's not; you have to come back at the end. Okay?  JOSEPH KARMAZIN: Yeah, copy that. Okay, April 22nd analysis had 180 vehicles on-site and with the 109 proposed spots it just seems like a conundrum. When there's two	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	JOSEPH KARMAZIN: Right.  ATTORNEY SORDILLO: We understand that. But, once again, you know, with testimony or any comments that you are going to make, even if you make them now, they're not going to be, as the board member said, they won't be part of the record. The board won't be able to consider them until you do it at the end.  So that's why we want to make sure you're aware of these procedures because the board wants to be able to consider your comments, and if you do them now, we can't.  JOSEPH KARMAZIN: Okay. I get it. I get it.  So the question is ATTORNEY SORDILLO: We're talking about
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	be considered.  So I just want to make sure that you understand that because I think that people understand that. Ms. Esposito came up and had some specific firsthand testimony that she wanted and it's not going to be part of the record unless folks are sworn in at the end of the at the public portion comment.  So I just want to let people know that so that you don't think it's on the record because you say it now. It's not; you have to come back at the end. Okay?  JOSEPH KARMAZIN: Yeah, copy that.  Okay, April 22nd analysis had 180 vehicles on-site and with the 109 proposed spots it just seems like a conundrum. When there's two sessions on a Friday I think someone touched on	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	JOSEPH KARMAZIN: Right.  ATTORNEY SORDILLO: We understand that. But, once again, you know, with testimony or any comments that you are going to make, even if you make them now, they're not going to be, as the board member said, they won't be part of the record. Okay, so the crosswalk situation, I know the other lady there had brought it up. And being that I live across the street, people were crossing right in front of my house, using my driveway as a crosswalk.  The nearest crosswalk is Ernston and Bordentown. The other one is all the way up by Gateway light, okay. There is no way people are going to not cross Ernston Road coming from park.
2 3 4 5 6 7 8 9 10 11 12 13 14	been received yet. When there is, there's a document that will be part of this record and will be made available to the public and you can question on.  But in order to ensure a clean record, we have to limit this portion, this section of the application to questions relating to the traffic study as well as the parking. So traffic and parking.  JOSEPH KARMAZIN: Okay. I have parking questions.  Well, the fire truck, fire truck that's part of it, right, they're supposed to be able to turn around?  ATTORNEY POHLMAN: So as part of every	2 3 4 5 6 7 8 9 10 11 12 13 14	ATTORNEY SACHS: Some buffering, some additional buffering.  JOSEPH KARMAZIN: Okay. Well, I thought that's why it's supposed to be set back so far. Oh, okay. All right, sure, put bushes.  Okay, so the crosswalk situation, I know the other lady there had brought it up. And being that I live across the street, people were crossing right in front of my house, using my driveway as a crosswalk.  The nearest crosswalk is Ernston and Bordentown. The other one is all the way up by Gateway light, okay. There is no way people are going to not cross Ernston Road coming from park. It's a safety concern. They're definitely going to
2 3 4 5 6 7 8 9 10 11 12 13 14 15	been received yet. When there is, there's a document that will be part of this record and will be made available to the public and you can question on.  But in order to ensure a clean record, we have to limit this portion, this section of the application to questions relating to the traffic study as well as the parking. So traffic and parking.  JOSEPH KARMAZIN: Okay. I have parking questions.  Well, the fire truck, fire truck that's part of it, right, they're supposed to be able to turn around?  ATTORNEY POHLMAN: So as part of every application they request a turning radius or a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ATTORNEY SACHS: Some buffering, some additional buffering.  JOSEPH KARMAZIN: Okay. Well, I thought that's why it's supposed to be set back so far. Oh, okay. All right, sure, put bushes.  Okay, so the crosswalk situation, I know the other lady there had brought it up. And being that I live across the street, people were crossing right in front of my house, using my driveway as a crosswalk.  The nearest crosswalk is Ernston and Bordentown. The other one is all the way up by Gateway light, okay. There is no way people are going to not cross Ernston Road coming from park. It's a safety concern. They're definitely going to do it. There's no other way to get there.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	been received yet. When there is, there's a document that will be part of this record and will be made available to the public and you can question on.  But in order to ensure a clean record, we have to limit this portion, this section of the application to questions relating to the traffic study as well as the parking. So traffic and parking.  JOSEPH KARMAZIN: Okay. I have parking questions.  Well, the fire truck, fire truck that's part of it, right, they're supposed to be able to turn around?  ATTORNEY POHLMAN: So as part of every application they request a turning radius or a circulation plan for emergency vehicles. Again,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ATTORNEY SACHS: Some buffering, some additional buffering.  JOSEPH KARMAZIN: Okay. Well, I thought that's why it's supposed to be set back so far. Oh, okay. All right, sure, put bushes.  Okay, so the crosswalk situation, I know the other lady there had brought it up. And being that I live across the street, people were crossing right in front of my house, using my driveway as a crosswalk.  The nearest crosswalk is Ernston and Bordentown. The other one is all the way up by Gateway light, okay. There is no way people are going to not cross Ernston Road coming from park. It's a safety concern. They're definitely going to do it. There's no other way to get there.  Unless you add an additional traffic
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	been received yet. When there is, there's a document that will be part of this record and will be made available to the public and you can question on.  But in order to ensure a clean record, we have to limit this portion, this section of the application to questions relating to the traffic study as well as the parking. So traffic and parking.  JOSEPH KARMAZIN: Okay. I have parking questions.  Well, the fire truck, fire truck that's part of it, right, they're supposed to be able to turn around?  ATTORNEY POHLMAN: So as part of every application they request a turning radius or a circulation plan for emergency vehicles. Again, that's not part of this part of the application.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ATTORNEY SACHS: Some buffering, some additional buffering.  JOSEPH KARMAZIN: Okay. Well, I thought that's why it's supposed to be set back so far. Oh, okay. All right, sure, put bushes.  Okay, so the crosswalk situation, I know the other lady there had brought it up. And being that I live across the street, people were crossing right in front of my house, using my driveway as a crosswalk.  The nearest crosswalk is Ernston and Bordentown. The other one is all the way up by Gateway light, okay. There is no way people are going to not cross Ernston Road coming from park. It's a safety concern. They're definitely going to do it. There's no other way to get there.  Unless you add an additional traffic light somewhere on Ernston Road, where they can hit
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	been received yet. When there is, there's a document that will be part of this record and will be made available to the public and you can question on.  But in order to ensure a clean record, we have to limit this portion, this section of the application to questions relating to the traffic study as well as the parking. So traffic and parking.  JOSEPH KARMAZIN: Okay. I have parking questions.  Well, the fire truck, fire truck that's part of it, right, they're supposed to be able to turn around?  ATTORNEY POHLMAN: So as part of every application they request a turning radius or a circulation plan for emergency vehicles. Again, that's not part of this part of the application.  JOSEPH KARMAZIN: That's not part of	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ATTORNEY SACHS: Some buffering, some additional buffering.  JOSEPH KARMAZIN: Okay. Well, I thought that's why it's supposed to be set back so far. Oh, okay. All right, sure, put bushes.  Okay, so the crosswalk situation, I know the other lady there had brought it up. And being that I live across the street, people were crossing right in front of my house, using my driveway as a crosswalk.  The nearest crosswalk is Ernston and Bordentown. The other one is all the way up by Gateway light, okay. There is no way people are going to not cross Ernston Road coming from park. It's a safety concern. They're definitely going to do it. There's no other way to get there.  Unless you add an additional traffic light somewhere on Ernston Road, where they can hit a button and cross safely, I don't see how this is
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	been received yet. 	W. Stimmel, PE, PP, PTOE 159		w. Stimmer, FE, FF, F10E
1	been a concern there; it's a small neighborhood.	1	RUDY JAMES: I'm a business owner, and
2	And the idea of making a right-hand turn out of	2	I've been doing this for a long time.
3	Parkway Place getting to a question is not	3	CHAIRMAN TIGHE: You're correct.
4	only dangerous, okay, but it has proven, proven to	4	RUDY JAMES: This doesn't thank you.
5	have issues for all the businesses in that area,	5	I'm sorry, Mr. Chair.
6	okay, because it gets backed up.	6	CHAIRMAN TIGHE: You're correct.
7	So in the parking reports that you all	7	RUDY JAMES: Yeah, I know that I need
8	did that were of a certain amount of time and,	8	to comply under certain things; it's called
9	obviously I'm sorry, Bernie, give me a minute	9	compliance. I know we've talked about
10	here but obviously not the amount of time that	10	accountability, but I think that there has been some
11	should have been checked, okay. Did you take into	11	maybe loopholes taken into account with the I
12	consideration the safety and previous accidents that	12	don't know.
13	have happened at that location?	13	How many people are going to be here?
14	ATTORNEY SACHS: No, no.	14	250 square feet is a hotel room. So we are
15	RUDY JAMES: Okay, are we good?	15	accommodating one person per hotel room; is that
16	ATTORNEY SACHS: Hold on.	16	what we're saying? Let's confirm that also.
17	THE WITNESS: I'm trying to write down	17	ATTORNEY SACHS: Mr. Chairman, I don't
18	the	18	know if it's a comment, if it's a question.
19	ATTORNEY SACHS: We're trying to write	19	RUDY JAMES: No, are you estimating on
20	down your question.	20	one person per 250 feet?
21	RUDY JAMES: No problem. She is	21	ATTORNEY SACHS: Well, I think no.
22	actually taking notes, might get them	22	I think the comment by my excuse me, I think the
23	ATTORNEY POHLMAN: Mr. Sachs, I think	23	comment by our engineer.
24	the gentleman's question is in developing the	24	RUDY JAMES: Oh, the parking space.
25	traffic plan for the site did the experts consider	25	Sorry, go ahead.
	W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE
١.	160	١.	CHAIDMAN TICHE. Co shoot laws
1	the past history of accidents, pedestrian strikes,	1	CHAIRMAN TIGHE: Go ahead, Larry.
2	MVA's, anything along those lines?	2	ATTORNEY SACHS: Thank you. Thank
3	And, if so, what role did that play in the development of this traffic plan.	3 4	you.  I think the comment by the expert, by
5	THE WITNESS: We looked at the traffic	5	Mr. Stimmel, is that the number of parking spaces in
6	safety associated with the proposed driveway	6	his calculation is based on the square footage in
7	locations at the subject property. The issue with	7	the building, and it's one space per 250 square
8	the pedestrian crossings is something that has come	8	feet.
9	up relatively recently in terms of this project,	9	RUDY JAMES: In a 14,000-square-foot
10	with the possibility of off-site parking at	10	prayer area? Where is the math mapping?
11	Saint Bernadette's, so we haven't investigated any	11	ATTORNEY SACHS: I'm sorry, what was
12	past pedestrian safety issues crossing Ernston Road.	12	that?
13	As far as the driveway is concerned,	13	RUDY JAMES: Where does the "math map"?
14	the location of the driveways, the sight lines,	14	You never heard that? No? Okay.
15	et cetera, all of that is fine; it's in accordance	15	How does your math add up?
16	with accepted engineering standards and has been	16	ATTORNEY SACHS: I think my expert
17	approved by the county.	17	provided that testimony several times this evening,
18	The pedestrian issue, the possibility	18	sir, so.
19	of a sidewalk, a crosswalk rather, would require	19	MEMBER OF THE AUDIENCE: Not a good
20	some further investigation.	20	expert.
21	RUDY JAMES: It sounds like there's a	21	RUDY JAMES: He hasn't provided an
22	lot of work still to get done here before you submit	22	answer that I believe a math teacher would accept,
23	for an application. That's a question, I'm just	23	so let's start there.
154	saying.	24	All right, I'm good. Thanks.
24			PRUTHVIK PATEL: Pruthvik Patel,

1	P-R-U-T-H-V-I-K, P-A-T-E-L.	1	the worst-case scenario?
2	All right, so my question is for	2	ATTORNEY POHLMAN: Sir, certainly
3	Mr. Khan. As we discussed in the last	3	you're certainly educated in this area. I just have
4	(Stenographer clarification.)	4	to remind you to please direct your questions at
5	PRUTHVIK PATEL: Oh, sorry, 8 Singer	5	that engineer.
6	Court, Parlin.	6	So is your question to the engineer,
7	All right, so as we discussed last	7	that you as a professional, are asking why is the
8	time, you said the building will be designed as per	8	parking plan being scaled down to a lower level than
9	2021 IBC, right; that's the International Building	9	the maximum amount of parking that may be available
10	Code, right?	10	on the site, is that please, folks, please.
11	And International Building Code 2021	11	Sir, is that your question to the
12	refers to ASC 716 for the wind speeds, correct?	12	engineer?
13	ADNAN KHAN: I'm not an architect,	13	PRUTHVIK PATEL: That is my question,
14	that's a question for architect, but, yeah, whatever	14	yes.
15	the code requires. The building and the whole site	15	ATTORNEY POHLMAN: Okay, thank you.
16	will be designed per the building code and the	16	PRUTHVIK PATEL: But the reason I
17	township or town and county ordinances. Yes,	17	asked him was because he is an impartial party.
18	agreed.	18	ATTORNEY POHLMAN: And it's difficult,
19	PRUTHVIK PATEL: As per AC 716, the	19	and there's a formal process sometimes, and I
20	wind speed that the building will be designed for	20	understand how it can be frustrating, but in order
21	will be 115 miles per hour, 1-1-5 miles per hour.	21	to ensure that we have a clean record.
22	Has any one of you in Parlin been in	22	There is certainly going to be a time
23	this wind speed?	23	where every member of the public every resident
24	ADNAN KHAN: That's a code. That's a	24	of Sayreville, Old Bridge, of Parlin will be able
25	code you have to	25	to ask questions, make comments and have questions
23	W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE
	164		166
1	MEMBER PATEL: No, no, no, I agree	1	presented to this board, but at this point
2	with it. I am a structural engineer, I'm licensed	2	UNIDENTIFIED SPEAKER: You keep saying
3	in New Jersey, I know. And I agree with the code,	3	that.
4	we have to follow the code. But we have not seen	4	ATTORNEY POHLMAN: Yes, and the
5	this wind speed, right, but we still design the	5	process, the way the Municipal Land Use Law in the
6	building for the worst-case scenario. You are also	6	State of New Jersey establishes that how these
7	going to design the sewage for the worst-case	7	proceedings are done, is that the applicant puts on
8	scenario.	8	witnesses. When that witness is when that
9	But when it comes to but when it	9	witness is done presenting their testimony, they're
10	comes to parking, the traffic engineer very	10	allowed to be questioned by the board and the board
11	conservatively takes a very low number and he says	11	professionals. Then the public has the opportunity
12	that my applicant told me that only 150 or	12	to question these witnesses, like they're doing
13	120 people would come in.	13	here.
14	If you are an I understand that you	14	Then, when the applicant closes their
15	don't have enough data points. He said that the TIA	15	application, is when the public by law is provided
16	or the report has only two mosques in the study.	16	the opportunity to provide testimony, if they want
i .	And they carried out two other mosques as well. I	17	to be sworn in, and provide commentary, if they
17	understand, four data points doesn't make sense. So	18	wish. And that's the process which we have to
1	if that doesn't make sense, doesn't it make	19	follow in order to ensure that we have a clean
19		20	record, and that any decision that's rendered by
20	engineering judgment to go with the worst-case	21	this board would be supportable and would be
21	scenario?	22	would be upheld upon any judicial review. And so
22		1 44	would be apricia apoil any Judicial Teview. And 30
22	You are the engineer, sir, right, on	72	that's why we have to be a stickler to form here
23	the town council? You, sir, you are the town	23	that's why we have to be a stickler to form here.
23 24 25		23 24 25	that's why we have to be a stickler to form here.  And I'm not going to take your time away because I'm talking a lot, and that's my fault,

_		_	
	W. Stimmel, PE, PP, PTOE 167		W. Stimmel, PE, PP, PTOE 169
1	but I believe that I clarified your question, which	1	So the side effects are a little bit
2	is to the engineer	2	lesser, too, but that's the standard
3	PRUTHVIK PATEL: Yes.	3	PRUTHVIK PATEL: Same rules, though,
4	ATTORNEY POHLMAN: is why with	4	no? Don't we have to follow the code, though?
5	respect to the purpose of parking is he scaling down	5	THE WITNESS: We can ask for you
6	as opposed to scaling up, and assuming that it would	6	can ask for a variance or a waiver from the parking
7	be the maximum type of use; is that correct?	7	requirement. The building code is another matter.
8	PRUTHVIK PATEL: Yes, sir. Thank you.	8	PRUTHVIK PATEL: Okay. So majority of
9	ATTORNEY POHLMAN: Thank you, sir. And	9	the time in Sayreville there will be less than 60
10	you can	10	miles per hour wind speeds, so let's just design the
11	THE WITNESS: So were you asking me	11	structure for 60 miles per hour. Why are we wasting
12	that question or	12	money?
13	PRUTHVIK PATEL: Whoever, whichever	13	Ask him how much money he will save if
14	engineer wants to answer.	14	he designed the structure for 60 miles per hour? A
15	THE WITNESS: Parking, generally, is	15	lot of money. A lot of man hours.
16	not designed for the worst-case scenario. It was	16	So it doesn't make sense. He's telling
17	something I said in response to the planner from	17	from the first point that he doesn't have enough
18	Old Bridge before.	18	data points. I will agree to his point, he doesn't
19	Because of a use like this and,	19	have enough data points. That's why we have to go
20	again, I think everybody is in agreement on this	20	with the worst-case scenario.
21	most of the parking demand is going to occur during	21	And I would like the town council to
22	those Friday services. If it lasts two hours from	22	concentrate on this point and make a review on that.
23	the beginning of the first service to the end of the	23	That's all I have.
24	second service, that means the remaining 22 hours of	24	Do I have to stay till the end?
25	the day and the remaining six days of the week, the	25	ATTORNEY POHLMAN: No, sir, you're not

The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of	2 3 4 5 6 7 8	required to stay. You can leave at any time, there's no PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't All right, thank you. MICHAEL DELANEY: Thank you, Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.
2 3 4 5 6 7 8	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.	2 3 4 5 6 7 8	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?
2 3 4 5 6 7 8 9	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are	2 3 4 5 6 7 8 9	required to stay. You can leave at any time, there's no PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't All right, thank you. MICHAEL DELANEY: Thank you, Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin. CHAIRMAN TIGHE: Traffic, right? MICHAEL DELANEY: I beg your pardon?
2 3 4 5 6 7 8 9 10 11	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually	2 3 4 5 6 7 8 9 10	required to stay. You can leave at any time, there's no PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't All right, thank you. MICHAEL DELANEY: Thank you, Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin. CHAIRMAN TIGHE: Traffic, right? MICHAEL DELANEY: I beg your pardon? CHAIRMAN TIGHE: Talking about traffic?
2 3 4 5 6 7 8 9 10 11 12	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most	2 3 4 5 6 7 8 9 10 11 12	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you. CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few
2 3 4 5 6 7 8 9 10 11 12 13	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative	2 3 4 5 6 7 8 9 10 11 12 13	required to stay. You can leave at any time, there's no PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't All right, thank you. MICHAEL DELANEY: Thank you, Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin. CHAIRMAN TIGHE: Traffic, right? MICHAEL DELANEY: I beg your pardon? CHAIRMAN TIGHE: Talking about traffic? MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?
2 3 4 5 6 7 8 9 10 11 12 13	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is	2 3 4 5 6 7 8 9 10 11 12 13	required to stay. You can leave at any time, there's no PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't All right, thank you. MICHAEL DELANEY: Thank you, Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin. CHAIRMAN TIGHE: Traffic, right? MICHAEL DELANEY: I beg your pardon? CHAIRMAN TIGHE: Talking about traffic? MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay? CHAIRMAN TIGHE: That's perfect.
2 3 4 5 6 7 8 9 10 11 12 13 14	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.	2 3 4 5 6 7 8 9 10 11 12 13 14	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is	2 3 4 5 6 7 8 9 10 11 12 13 14 15	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	required to stay. You can leave at any time, there's no PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't All right, thank you. MICHAEL DELANEY: Thank you, Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin. CHAIRMAN TIGHE: Traffic, right? MICHAEL DELANEY: I beg your pardon? CHAIRMAN TIGHE: Talking about traffic? MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay? CHAIRMAN TIGHE: That's perfect. MICHAEL DELANEY: Thank you. Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less room for landscaping, and so on.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report that one of the sources of your information was
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less room for landscaping, and so on.  So, you know, and I guess in a more	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report that one of the sources of your information was information from your client; is that correct?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less room for landscaping, and so on.  So, you know, and I guess in a more light-hearted manner the issue is if you don't have	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report that one of the sources of your information was information from your client; is that correct?  THE WITNESS: Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less room for landscaping, and so on.  So, you know, and I guess in a more light-hearted manner the issue is if you don't have enough parking, you have to find parking someplace	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report that one of the sources of your information was information from your client; is that correct?  THE WITNESS: Yes.  MICHAEL DELANEY: What, if anything,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less room for landscaping, and so on.  So, you know, and I guess in a more light-hearted manner the issue is if you don't have enough parking, you have to find parking someplace further away; whereas, if you don't design to meet	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4 Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report that one of the sources of your information was information from your client; is that correct?  THE WITNESS: Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	majority of the parking isn't going to be used by anyone.  So the more parking you provide on the subject property is more parking that you're not going to have used most of the time.  The intention with these parking requirements is generally to accommodate most of the parking demand on-site under the majority of conditions.  And the municipalities that are changing their parking requirements are actually making the parking requirements less for the most part, not increasing them because of the negative effects that go along with providing parking that is not used most of the time.  You know, whether or not someone is parked there you still have the stormwater runoff, you still have the heat island effect, you have less room for landscaping, and so on.  So, you know, and I guess in a more light-hearted manner the issue is if you don't have enough parking, you have to find parking someplace	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	required to stay. You can leave at any time, there's no  PRUTHVIK PATEL: Oh, no, about that signing thing; I don't know, I didn't  All right, thank you.  MICHAEL DELANEY: Thank you,  Mr. Chairman, Michael Delaney, D-E-L-A-N-E-Y, 4  Bielak Place, Parlin.  CHAIRMAN TIGHE: Traffic, right?  MICHAEL DELANEY: I beg your pardon?  CHAIRMAN TIGHE: Talking about traffic?  MICHAEL DELANEY: I have a few questions for Mr. Stimmel, if that's okay?  CHAIRMAN TIGHE: That's perfect.  MICHAEL DELANEY: Thank you.  Mr. Stimmel, you testified earlier when you were reading from your August 8th, 2023, report as well as in response to the Bright View report that one of the sources of your information was information from your client; is that correct?  THE WITNESS: Yes.  MICHAEL DELANEY: What, if anything, did you do to verify the accuracy of that

1	data for the existing use on the property. We had	1	best data available.
2	counts at the site when it was operating as a	2	So, if, in the future, the site
3	mosque, and the numbers he was proposing seemed	3	generates more obviously, we're talking if it's
4	reasonable based on the utilization of that site for	4	approved if the site generates more traffic than
5	that use.	5	what the client had indicated, than what our
6	MICHAEL DELANEY: So, for example, one	6	projection showed, what the prior counts at the site
7	of the sources of information I'm sorry, one of	7	had shown, there was a discussion or I believe it
8	the numbers that you testified was 300 members I	8	might have been in Mr. Cornell's review letter, that
9	guess we're calling them, was that something that	9	the applicant should provide an after-the-fact
10	you verified that number?	10	traffic study if and when the site becomes
11	THE WITNESS: That was just provided	11	operational, to review any issues with access,
12	in testimony at the last hearing, the 300 members in	12	parking, circulation, et cetera, that may come up.
13	the congregation.	13	And I think, you know, the client has
14	MICHAEL DELANEY: That's something	14	agreed to comply with a number of other comments
15	that you said this evening in response to an inquiry	15	from the board professionals and would certainly
16	with regard to the Bright View report and some of	16	comply with that.
17	the issues that it raised specifically with vehicle	17	So the last thing that we want to do is
18	counts.	18	do anything that poses a safety issue down the road.
19	THE WITNESS: Correct.	19	We want to get this right. We think we've provided
20	MICHAEL DELANEY: You were talking	20	the best information.
21	about 300 members.	21	We understand the comments from the
22	THE WITNESS: That was testified to on	22	board. We're going to come back at a future date,
23	the record at the last meeting.	23	to be determined, with additional information and
24	MICHAEL DELANEY: Okay.	24	try to address the remaining comments at that point.
25	My question again, sir, to you was did	25	MICHAEL DELANEY: Thank you,

It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.
2 3 4 5 6 7 8 9 10 11	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are	2 3 4 5 6 7 8 9 10 11	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know,
2 3 4 5 6 7 8 9 10 11 12 13	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go	2 3 4 5 6 7 8 9 10 11 12 13	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's
2 3 4 5 6 7 8 9 10 11 12 13 14	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.	2 3 4 5 6 7 8 9 10 11 12 13	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may
2 3 4 5 6 7 8 9 10 11 12 13 14 15	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right	2 3 4 5 6 7 8 9 10 11 12 13 14	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I
2 3 4 5 6 7 8 9 10 11 12 13 14 15	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?  ATTORNEY POHLMAN: So there have been	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would increased traffic flow stop the building of the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?  ATTORNEY POHLMAN: So there have been no conclusions reached regarding this. The board	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would increased traffic flow stop the building of the masjid? I think that's what everybody is trying to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?  ATTORNEY POHLMAN: So there have been no conclusions reached regarding this. The board has not rendered any opinion or any finding of fact	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would increased traffic flow stop the building of the masjid? I think that's what everybody is trying to see.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?  ATTORNEY POHLMAN: So there have been no conclusions reached regarding this. The board has not rendered any opinion or any finding of fact with respect to traffic flow in particularly	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would increased traffic flow stop the building of the masjid? I think that's what everybody is trying to see.  ATTORNEY SORDILLO: Could you maybe
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?  ATTORNEY POHLMAN: So there have been no conclusions reached regarding this. The board has not rendered any opinion or any finding of fact with respect to traffic flow in particularly off-site traffic issues, there has been no	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would increased traffic flow stop the building of the masjid? I think that's what everybody is trying to see.  ATTORNEY SORDILLO: Could you maybe rephrase the question? I don't quite understand the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	irrelevant for this particular project. So everybody has to understand.  Plus, we're bringing the traffic issue with other projects. Now this arsenal project, I'm sure the board heard the arsenal project, you know, testimonies from their expert and traffic studies from their expert, and that has been done.  Now who is here to decide that all the trucks from the arsenal project has to come to this project of the mosque only?  There are roads going the other way, to the Washington Road. There are trucks which are coming to Bordentown Avenue, that is likely to go straight on Route 9.  The trucks are not likely to make right turn to go onto there may be one or two, but why are we making all that conclusion for this particular application?  ATTORNEY POHLMAN: So there have been no conclusions reached regarding this. The board has not rendered any opinion or any finding of fact with respect to traffic flow in particularly	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	changes would be allowed at the intersection of Bordentown Road and Ernston.  ATTORNEY SORDILLO: Well, if I may, Mr. Chairman. That's not relevant to this particular application. It's not I'm not saying it's not a relevant question and it's a very good question, and it actually may be something more akin to, not to this board, but to actually the governing body of the borough. It's not something that's within this board's jurisdiction, and certainly not within the jurisdiction of this application.  So there's no answer to that, you know, to give you right now, but that's not to say it's not a good question; it's just something this may not be the right venue for.  OSMAN ZAMAN: Okay. That's fine. I just wanted that's what my question was.  And the second, I wanted to know would increased traffic flow stop the building of the masjid? I think that's what everybody is trying to see.  ATTORNEY SORDILLO: Could you maybe

W. Stimmel, PE, PP, PTOE  183 1 right to practice their religion; the congregation 2 has the right to practice their religion; but it 3 looks like if there's enough traffic that they will 4 rot get that right. 5 So is shat actually true, or is it 5 Coordinating the building with the traffic? 7 ATTORNEY PORIMAN: Ah. So there has 8 been no decision or opinion given by this board 9 regarding any aspect of this applicant which is 10 time. 11 The applicant, the applicant which is 12 the mosque, is the party that presented testimony 13 and evidence regarding the traffic, which is why 14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 16 the board is because traffic flow in and out of the 18 sixe, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 10 application for a land use development, for any 10 board in the State of New Jersey. 11 And so the reason this is being 12 discussed tonight isn't because the's checking a box, 13 you know, that we're determining tanight whether 15 relevant issues to consider in whether or not this 16 plan is the best plan that it can be and is 17 pappropriate. 18 The applicant is the one who is 18 persenting this tonight. The board, you know, is 19 not - you know, has not made any decision on 19 CHAIRMAN TIGHE: Main, before you 19 CHAIRMAN TIGHE: Main, before you 19 CHAIRMAN TIGHE: Main, before you 19 Ethick Time and land the property, are all 19 Edwards. Address is 10 Vincent Street, parlin. 1 19 Edwards. Address is 10 Vincent Street, parlin. 1 20 CHAIRMAN TIGHE: Main, before you 21 the testify if my list giping to mention that we're giping 22 Corperts tooks, all right. 23 the seal of the hours that you give use? 24 STORINEY SACHS: We will there be potentially 25 We will provide some types of calendar to the board of the safe, the queuing, etting 26 the seal of the hours that you give use? 27 STORINEY SACHS: We will the provides once the parlin that it is generally not well-attended, maybe So of	_		_	
1 right to practice their religion; the congregation 2 has the right to practice their religion. But it 3 looks like if there's enough traffic that they will 4 not get that right. 5 So is that actually true, or is it 6 coordinating the building with the traffic? 7 ATTORREY PACHIS. I think I indicated 8 been no decision or opinion given by this board 9 regarding any aspect of this applicant with is 10 time. 11 The applicant, the applicant which is 12 the mosque, is the party that presented testimony 13 and evidence regarding the traffic, which is why 14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 16 The reason they are putting it before 18 size, the questing at the site, traffic circulation, 29 application for a land use development, for any 20 application for a land use development, for any 21 board in the State of New Iersey. 22 And so the reason this is being 23 discussed tonight isn't because the traffic? 3 flow in and out of the site, the questing, between 25 televant issues to consider in whether or not this 26 plan is the best plan that it can be and is 27 presenting information to the public, 28 to the board regarding information to the public, 39 to the board regarding information to the public, 40 to the board regarding information to the public, 41 applicant is presenting information to the public, 42 to the board regarding information to the public, 43 to the thour department of the public, 44 to the board regarding information to the public, 45 to the board regarding information to the public, 46 plan is the best plan that it can be and is 47 relevant issues to consider in whether or not this 48 relevant issues to consider in whether or not this 49 relevant issues to consider in whether or not this 40 relevant issues to consider in whether or not this 41 relevant issues to consider in whether or not this 42 presenting information to the public, 43 to the board regarding information to the public, 44 relevant issues to consider in whether or not		W. Stimmel, PE, PP, PTOE		W. Stimmel, PE, PP, PTOE
2 your testmony today that those will not be 3 accommodated, or will they be potentially 4 accommodated, or will the be be accented to the board regarding with the traffic?  7 The applicant, the applicant which is the property and evidence regarding the traffic, which is why will be accessed the traffic will be property and evidence regarding traffic because the board regarding traffic because that traffic will be property access that traffic applicant whether 25 it's enough or not enough. It's because the 25 gentlement of the public, 25 to the board regarding traffic because that traffic applicant is presenting information to the public, 25 to the board regarding traffic because that traffic applicant is presenting	1		1	
3 looks like if there's enough traffic that they will   4 not get that right.   5 So is that actually true, or is it   5 Coordinating the building with the traffic?   7 ATTORNEY SACHS: I think I indicated   6 coordinating the building with the traffic?   8 Person decision or opinion given by this board   9 cegarding any aspect of this application at this   10 time.   10 Person the applicant which is   11 The applicant, the applicant which is   12 the mosque, is the party that presented restimony   13 and evidence regarding the traffic, which is why   14 we're discussing it today. It is the applicant who is is putting the information before the board.   15 The reason they are putting it before   16 Secusion   16 Secusio			1	
4 accommodated outside of the hours that you gave us? 5 of So is that actually true, or is it 6 coordinating the building with the traffic? 7 ATTORNEY POHLMAN: An. So there has 8 been no decision or opinion given by this board 9 regarding any aspect of this application at this 1 time. 1 The applicant, the applicant which is 12 the mosque, is the party that presented testimony 13 and evidence regarding the traffic, which is why 14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 15 is putting the information before the board. 16 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 19 application for a land use development, for any 20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight is nit because it's checking a box, 24 you know, that we're determining tonlight whether 25 it's enough or not enough. It's because that traffic, 25 to the board regarding traffic because that traffic, 26 flow in and out of this site, the queuing, getting 27 in any thou the road and the property, are all 28 relevant issues to consider in whether or not this 29 presenting this tonight. The board, you know, is a not — you know, has not made any decision on anything right now. 20 GSMAN ZAMAN: Thank you. That's all. 21 Thank you for the clarification. 22 Gabad, ma'am. 23 Gabaed, ma'am. 24 Edwards. Address is 10 Vincent Street, Parlin. I 25 Ilivis behind this proposed location. 26 Edwards. So there was testimony given that the hours were going to be from 6.00 s.m. to 27 Edwards. So there was testimony given that the hours were going to be from 6.00 s.m. to 28 ESTANTER EDWARDS: So there was testimony given that the nour were going to be from 6.00 s.m. to 29 ENNIFER EDWARDS: So there was testimony given that the hours were going to be from 6.00 s.m. to 30 ENNIFER	ı			
5 So is that actually true, or is it 6 coordinating the building with the traffic? 7 ATTORNEY POHLMAN: An. So there has 8 been no decision or opinion given by this board 9 regarding any aspect of this applicant withis board 10 time. 11 The applicant, the applicant which is 11 time. 12 The applicant, the applicant which is 13 and evidence regarding the traffic, which is why 14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 16 The reason they are putting it before 18 site, the queuing at the site, traffic circulation, 9 are all relevant topics with respect to any 19 application for a land use development, for any 10 aboard in the State of New Jersey. 10 And so the reason this is being 11 splan is the best plan that it can be and is 12 plan is the best plan that it can be and is 13 plan is the best plan that it can be and is 14 plan is the best plan that it can be and is 15 plan is the best plan that it can be and is 16 presenting this tonight. The board, you know, is not made any decision on 17 appropriate. 18 The applicant is the one who is 19 presenting this tonight. The board, you know, is not made any decision on 11 anything the information to the public, 12 to the board regarding traffic because that traffic 13 flow in and out of this six, the queuing, getting 14 in and out on the road and the property, are all relevant issues to consider in whether or not in anything right now. 15 presenting this tonight. The board, you know, is not made any decision on 16 anything right now. 17 Go ahead, ma'am. 18 Lewards. Address is 10 Vincent Street, Parlin. I 19 Edwards. Address is 10 Vincent Street, Parlin. I 19 Live behind this proposed location. 19 Livel and the neighborhood that is 19 discussed the firm that ware going to be from 6:00 a.m. to 20 Live behind this proposed location. 21 Livel and the neighborhood that is 22 discussed the intersections were not addressed in part 23 discussed to skip there is a big concern there in people cutting 24 the hours were golin				
6 coordinating the building with the traffic? 7 ATTORNEY POHLMAN: Ah. So there has 8 been no decision or opinion given by this board 9 regarding any aspect of this application at this 1 time. 8 The applicant, the applicant which is 1 time. 9 The applicant, the applicant which is 1 time. 10 The applicant, the applicant which is 1 time. 11 The applicant, the applicant which is why 1 we're discussing it today. It is the applicant who 15 is putting the information before the board. 15 is putting the information before the board. 16 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 20 application for a land use development, for any 21 board in the State of New Jersey. 20 And so the reason this is being 22 discussed tonight isn't because the traffic 23 discussed tonight isn't because the traffic 3 flow in and out of the 5 pain is the board regarding traffic because that traffic 3 pain is the best plan that it can be and is 2 applicant is presenting information to the public, 2 to the board regarding traffic because that traffic 4 pain is the best plan that it can be and is 3 appropriate. 184 applicant is the one who is 3 presenting information to the public, 4 pain is the best plan that it can be and is 3 appropriate. 184 Thank you know, has not made any decision on anything right now. 185 Thank you know, has not made any decision on anything right now. 186 CHARMAN TIGHE: Ma'am, before you testify 1 my just going to mention that we're going 15 to stop at eleven. 187 Go ahead, ma'am. 188 JENNIFER EDWARDS: My name is Jennifer 19 Edwards. Address is 10 Vincent Street, Parlin. I 20 live behind this proposed location. 189 LENNIFER EDWARDS: My name is Jennifer 19 Edwards. Address is 10 Vincent Street, Parlin. I 20 live behind this proposed location. 1 That a couple of questions for our 24 experts today. So there was testimony given that 24 the hours were going to be from 6:00 a.m.			l l	
been no decision or opinion given by this board pregarding any aspect of this application at this time.  The applicant, the applicant which is why we're discussing it today. It is the applicant who is betting the information before the board. The reason they are putting it before the site, the queuing at the site, traffic circulation, an applicant for load by application for a land use development, for any applicant for for land use development, for any applicant for land by the state of New Jersey.  And so the reason this is being a discussed tonight is the because it's checking a box, you know, that we're determining tonight whether it's enough or not enough. It's because that traffic for land use day to the board regarding traffic because that traffic for land use day to the board regarding traffic because that traffic for land use day to the board regarding traffic because that traffic for land used the property, are all relevant issues to consider in whether or not this presenting information to the public, to the board regarding traffic because that traffic plan is the best plan that it can be and is presenting information to the public, to the board regarding traffic because that traffic plan is the best plan that it can be and is presenting information to the public, to the board regarding traffic because that traffic plan is the best plan that it can be and is presenting this tonight. The board, you know, is another of the charfication.  The applicant is the one who is presenting information to the public, to the board regarding traffic because that traffic provided the property, are all selevant issues to consider in whether or not this appropriate.  The applicant is the one who is presenting this tonight. The board, you know, is an ont — you know, has not made any decision on anything right now.  CSMAN ZAMAN: Thank you. That's all.  Thank you for the clarification.  CHAIRMAN TIGHE: Ma'am, before you testify the private proposed location.  EVALUATED AND AND AND AND AND AND AND AND AND AN			1	
8 been no decision or opinion given by this board 9 regarding any aspect of this application at this 10 time. 11 The applicant, the applicant which is 12 the mosque, is the party that presented testimony 13 and evidence regarding the traffic, which is why 14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 16 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 26 applicant is presenting information to the public, 27 to the board regarding traffic because that traffic, 28 flow in and out of this site, the queuing, getting 29 in and out on the road and the property, are all 29 relevant issues to consider in whether or not this 29 presenting this tonight. The board, you know, is an ont -you know, has not made any decision on 11 anything right now. 12 CHAIRMAN TIGHE: Ma'am, before you 13 testify I'm just going to mention that we're going 14 to stop at eleven. 15 Ga ahead, ma'am. 16 JENNIFER EDWARDS: My ame is Jennifer 17 Ga ahead, ma'am. 18 JENNIFER EDWARDS: My name is Jennifer 19 Edwards. Address is 10 Vincent Street, Parlin. I 20 live behind this proposed location. 21 Live behind this proposed location. 22 experts today. So there was testimony given that 24 the hours were going to be from 6:00 a.m. to 25 study involving these streets. Also Villanova Road 26 study involving these streets. Also Villanova Road 27 unifold the proposed location on 28 study involving these streets. Also Villanova Road 29 study involving these streets. Also Villanova Road 29 study involving these streets. Also Villanova Road 29 study involving these streets. Also Villanova R		-	l	
9 regarding any aspect of this application at this 10 time. 10 time. 11 The applicant, the applicant which is 11 the mosque, is the party that presented testimony 12 and evidence regarding the traffic, which is why 13 and evidence regarding the traffic, which is why 14 we've discussing it today. It is the applicant who 15 is putting the information before the board. 15 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 19 are all relevant topics with respect to any 19 application for a land use development, for any 20 application for a land use development, for any 21 board in the State of New Jersey. 21 your know, that we're determining tonight whether 24 applicant is presenting information to the public, 2 to the board regarding traffic because the 17 the special policy of the care of the special policy of the specia				<del>_</del>
time.  The applicant, the applicant which is the mosque, is the party that presented testimony and evidence regarding the traffic, which is why and evidence regarding the traffic, which is why we're discussing it today. It is the applicant who is putting the information before the board.  The reason they are putting it before the board is because traffic flow in and out of the safe, which is experted to any are all relevant topics with respect to any application for a land use development, for any 20 application for a land use development, for any 21 board in the State of New Jersey.  And so the reason this is being 22 And so the reason this is being 33 discussed tonight isn't because it's checking a box, you know, that we're determining tonight whether 25 it's enough or not enough. It's because the W. Stimmel, PE, PP, PTOE 26 W. Stimmel, PE, PP, PTOE 27 Applicant is presenting information to the public, 26 to the board regarding traffic because that traffic 3 flow in and out of this site, the queuing, getting 4 in and out on the road and the property, are all relevant issues to consider in whether or not this 5 plan is the best plan that it can be and is 9 presenting this tonight. The board, you know, has not made any decision on anything right now.  DOMAN ZAMAN: Thank you. That's all. 13 Thank you for the clarification. 1 Anything right now. 15 consider in whether or our to anything right now. 16 consider in whether or our to anything right now. 17 considering the property, are all relevant issues to consider in whether or not this 5 presenting this tonight. The board, you know, is 5 presenting this tonight. The board, you know, is 5 presenting this tonight. The board, you know, is 5 presenting this tonight. The board, you know, is 5 presenting this tonight. The board, you know is 4 property to the control of the found of the foun				· ·
the mosque, is the party that presented testimony and evidence regarding the traffic, which is why we're discussing it today. It is the applicant who is putting the information before the board.  The reason they are putting it before site between the board is because traffic flow in and out of the site, the queuing at the site, traffic circulation, are all relevant topics with respect to any papilication for a land use development, for any papilication for a land use develo				
the mosque, is the party that presented testimony and evidence regarding the traffic, which is why we're discussing it today. It is the applicant who is putting the information before the board.  The reason they are putting it before the board.  The reason they are putting it before the site, the queuing at the site, traffic circulation, are all relevant topics with respect to any application for a land use development, for any application for all any the last and the late day service is generally not well-attended, maybe 5 or 6 patrons so.  JENNIFER EDWARDS: So it is, then, your testimony today that—  The early morning service, and the late day service is generally not well-attended, maybe 5 or 6 patrons so.  JENNIFER EDWARDS: So it is, then, your testimony double late for the beat plan that it can be and is applicant is presenting information to the public, to the board regarding traffic because that traffic double for the hours that your devine the traffic and the formation to the public, to the board regarding traffic because that traffic and use of the hours that y			1	
13 and evidence regarding the traffic, which is why 14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 16 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 26 upon in and out of this site, the queuing, getting 27 in and out on the road and the property, are all 28 relevant issues to consider in whether or not this 29 presenting this tonight. The board, you know, has not made any decision on 21 anything right now. 20 SMAN ZAMAN: Thank you. That's all. 21 Thank you for the clarification. 22 Edwards. Address is 10 Vincent Street, Parlin. I 23 Edwards. Address is 10 Vincent Street, Parlin. I 24 Edwards. Address is 10 Vincent Street, Parlin. I 25 live behind this proposed location. 26 I had a couple of questions for our 27 experts today. So there was testimony given that 28 the hours were going to be from 6:00 a.m. to 29 experts today. So there was testimony given that 29 the hours were going to be from 6:00 a.m. to 20 show, and I know that you reterated that again.				
14 we're discussing it today. It is the applicant who 15 is putting the information before the board. 16 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 20 application for a land use development, for any 21 application for a land use development, for any 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the  W. Stimmel, PE, PP, PTOE  184 15 applicant is presenting information to the public, 26 to the board regarding traffic because that traffic 27 appropriate. 28 The applicant is the one who is 29 presenting this tonight. The board, you know, has not made any decision on 21 anything right now. 21 OSMAN ZAMAN: Thank you. That's all. 22 felwards. Address is 10 Vincent Street, Parlin. I 23 Go ahead, ma'am. 24 JENNIFER EDWARDS: Okay. Well, per 25 your comments per your comments the potential is 26 W. Stimmel, PE, PP, PTOE  W. Stimmel, PE, PP, PTOE  4 applicant is presenting information to the public, 4 to the board regarding traffic because that traffic 5 plan is the best plan that it can be and is 6 appropriate.  8 The applicant is the one who is 9 presenting this tonight. The board, you know, is 10 not you know, has not made any decision on 11 anything right now. 12 OSMAN ZAMAN: Thank you. 13 Thank you for the clarification. 14 CHAIRMAN TIGHE: Ma'am, before you 15 testify I'm just going to mention that we're going 16 to stop at eleven. 17 Go ahead, ma'am. 18 JENNIFER EDWARDS: My name is Jennifer 19 Edwards. Address is 10 Vincent Street, Parlin. I 19 live behind this proposed location. 21 I had a couple of questions for our 22 experts today. So there was testimony given that 23 the hours were going to be from 6:00 a.m. to 24 8:30 p.m., and I know that you reiterated that again.			l	· -
15 is putting the information before the board. 16 The reason they are putting it before 17 the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 19 application for a land use development, for any 20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 26 W. Stimmel, PE, PP, PTOE 27 pour comments — per your comments the potential is 28 unation of this site, the queuing, getting 29 in and out of this site, the queuing, getting 30 in on the road and the property, are all 31 relevant issues to consider in whether or not this 32 presenting this tonight. The board, you know, is 33 not — you know, has not made any decision on 34 anything right now. 35 presenting this tonight. The board, you know, is 36 not — you know, has not made any decision on 37 anything right now. 38 presenting this tonight. The board, you know, is 39 presenting this tonight. The board, you know, is 40 to stop at eleven. 41 Go ahead, ma'am. 42 Edwards. Address is 10 Vincent Street, Parlin. I 43 Edwards. Address is 10 Vincent Street, Parlin. I 44 Edwards. Address is 10 Vincent Street, Parlin. I 55 I live behind this proposed location. 56 ahead, ma'am. 57 Edwards. Address is 10 Vincent Street, Parlin. I 58 Edwards. Address is 10 Vincent Street, Parlin. I 59 I live behind this proposed location. 50 Live behind this proposed location. 51 I had a couple of questions for our 52 experts today. So there was testimony given that 1 have is reason why these other interesections were not addressed in part 51 the early morning service, and the late day service is gearving service, and the late day service is gearving a well-attended, maybe 5 or 6 patrons 52 JENNIFER EDWARDS: Okay. Well, per 53 JENNIFER EDWARDS: Okay. Well, per 54 JENNIFER EDW				
The reason they are putting it before the board is because traffic flow in and out of the site, the queuing at the site, traffic circulation, are all relevant topics with respect to any application for a land use development, for any application for a land use developme			l	
the board is because traffic flow in and out of the 18 site, the queuing at the site, traffic circulation, application for a land use development, for any application for all use its energy of the board regarding traffic because the use of the land use o		· -		
18 site, the queuing at the site, traffic circulation, 19 are all relevant topics with respect to any 20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 26 w. Stimmel, PE, PP, PTOE 27			l	_
19 are all relevant topics with respect to any 20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 25 it's enough or not enough. It's because the 26 W. Stimmel, PE, PP, PTOE 27 W. Stimmel, PE, PP, PTOE 28 W. Stimmel, PE, PP, PTOE 29 W. Stimmel, PE, PP, PTOE 29 W. Stimmel, PE, PP, PTOE 29 W. Stimmel, PE, PP, PTOE 30 definitely there that this facility would be open 30 outside of the hours that you're giving? 3 flow in and out of this site, the queuing, getting 4 in and out on the road and the property, are all 5 relevant issues to consider in whether or not this 6 plan is the best plan that it can be and is 7 appropriate. 7 or question that I have is regarding traffic. 8 The applicant is the one who is 9 presenting this tonight. The board, you know, is 10 not you know, has not made any decision on 11 anything right now. 10 Anything right now. 11 Thank you for the clarification. 12 CHAIRMAN TIGHE: Ma'am, before you 15 testify I'm just going to mention that we're going 16 Edwards. Address is 10 Vincent Street, Parlin. I 16 Edwards. Address is 10 Vincent Street, Parlin. I 17 I had a couple of questions for our 29 experts today. So there was testimony given that 20 these other intersections were not addressed in part of the tours were going to be from 6:00 a.m. to 20 desired. 20 these other intersections were not addressed in part of the tours were going to be from 6:00 a.m. to 21 Everet to the outs were not addressed in part of the point in part of the point in the part of	1		1	
20 application for a land use development, for any 21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the  W. Stimmel, PE, PP, PTOE  184  1 applicant is presenting information to the public, 2 to the board regarding traffic because that traffic 3 flow in and out of this site, the queuing, getting 4 in and out on the road and the property, are all 5 relevant issues to consider in whether or not this 6 plan is the best plan that it can be and is 7 appropriate. 8 The applicant is the one who is 9 presenting this tonight. The board, you know, is 10 not you know, has not made any decision on 11 anything right now. 12 OSMAN ZAMAN: Thank you. That's all. 13 Thank you for the clarification. 14 CHAIRMAN TIGHE: Ma'am, before you 15 testify I'm just going to mention that we're going 16 to stop at eleven. 17 Go ahead, ma'am. 18 JENNIFER EDWARDS: So it is, then, 20 your testimony today that 21 ATTORNEY SACHS: Well, I don't testify 22 so.  JENNIFER EDWARDS: Okay. Well, per 24 your comments per your comments the potential is 26 definitely there that this facility would be open 27 outside of the hours that you're giving? 28 ATTORNEY SACHS: Yes, that testimony 29 unit of this interest pain is definitely parking. 20 uside of the hours that you're giving? 31 ATTORNEY SACHS: Yes, that testimony 32 may be subject to revision based upon our look at that that calendar. 33 JENNIFER EDWARDS: Okay. Second point or question that I have is regarding traffic. 34 I live in the neighborhood that is 35 directly behind this location. I notice that 36 absolutely no one here has mentioned it at all. And 37 there is a big concern there in people cutting 38 It is going to be the the location 39 for parking. We're well within half a mile. We're 39 directly behind this facility. 30 So. 31 It is going to be the the location 40 for parking. We're well within half a	l		l	
21 board in the State of New Jersey. 22 And so the reason this is being 23 discussed tonight isn't because it's checking a box, 24 you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 26 W. Stimmel, PE, PP, PTOE 27 The board regarding traffic because that traffic 28 to the board regarding traffic because that traffic 39 flow in and out of this site, the queuing, getting 40 in and out on the road and the property, are all 50 relevant issues to consider in whether or not this 50 plan is the best plan that it can be and is 50 propriate. 51 The applicant is the one who is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 51 presenting this tonight. The board, you know, is 52 presenting this tonight. The board with the presenting this tonight. The board, you know, is 52 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board, you know, is 54 presenting this tonight. The board the release to tonic that it all. And 56 presenting this tonight. The board the release to tonic that it all. And 57 presenting this tonight. The board the release to tonic t				
And so the reason this is being discussed tonight isn't because it's checking a box, you know, that we're determining tonight whether 25 it's enough or not enough. It's because the 25 your comments per your comments the potential is W. Stimmel, PE, PP, PTOE 184 184 1 applicant is presenting information to the public, 2 to the board regarding traffic because that traffic 3 flow in and out of this site, the queuing, getting 4 in and out on the road and the property, are all 5 relevant issues to consider in whether or not this 6 plan is the best plan that it can be and is 7 presenting this tonight. The board, you know, is 9 presenting this tonight. The board, you know, is 10 not you know, has not made any decision on 11 anything right now. 12 OSMAN ZAMAN: Thank you. That's all. 13 Thank you for the clarification. 14 CHAIRMAN TIGHE: Ma'am, before you 15 testify I'm just going to mention that we're going 16 dwards. Address is 10 Vincent Street, Parlin. I 19 Edwards. Address is 10 Vincent Street, Parlin. I 10 live behind this proposed location. 10 Ewperts days. So there was testimony given that 12 these other interesections were not addressed in part 14 these other interesections were not addressed in part 14 these other interesections were not addressed in part 15 these other interesections were not addressed in part 15 these other interesections were not addressed in part 15 these other interesections were not addressed in part 15 these other interestions were not addressed in part 15 these of the interestions were not addressed in part 15 these of the restrict part 25 your comments per your comments the potential is 25 your comments per your comments -	l		l	
discussed tonight isn't because it's checking a box, you know, that we're determining tonight whether it's enough or not enough. It's because the W. Stimmel, PE, PP, PTOE  W. Stimmel, PE, PP, PTOE  184  1 applicant is presenting information to the public, to the board regarding traffic because that traffic 7 down and out of this site, the queuing, getting 8 difficult is sues to consider in whether or not this 8 plan is the best plan that it can be and is 7 appropriate. 8 The applicant is the one who is 8 presenting this tonight. The board, you know, is 10 not you know, has not made any decision on 11 anything right now. 12 OSMAN ZAMAN: Thank you. That's all. 13 Thank you for the clarification. 14 CHAIRMAN TIGHE: Ma'am, before you 15 testify I'm just going to mention that we're going 16 to stop at eleven. 17 Go ahead, ma'am. 18 JENNIFER EDWARDS: My name is Jennifer 19 Edwards. Address is 10 Vincent Street, Parlin. I 19 Edwards. Address is 10 Vincent Street, Parlin. I 19 Edwards. Address is 10 Vincent Street, Parlin. I 19 about them. There has been no part of the traffic 19 besides inconvenient truths, is there a reason why 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 these other intersections were not addressed in part 19 the potential is 25 to the finite proposed location. 1 notic			1	
you know, that we're determining tonight whether it's enough or not enough. It's because the  W. Stimmel, PE, PP, PTOE  184  1 applicant is presenting information to the public, to the board regarding traffic because that traffic flow in and out of this site, the queuing, getting in and out on the road and the property, are all relevant issues to consider in whether or not this papropriate.  The applicant is the one who is presenting this tonight. The board, you know, is not you know, has not made any decision on anything right now.  OSMAN ZAMAN: Thank you. That's all. Thank you for the clarification.  CHAIRMAN TIGHE: Ma'am, before you testify I'm just going to mention that we're going to stop at eleven.  Go ahead, ma'am.  JENNIFER EDWARDS: Okay. Well, per your comments the potential is  W. Stimmel, PE, PP, PTOE  W. Stimmel, PE, PP, PTOE  184  definitely there that this facility would be open outside of the hours that you're giving?  ATTORNEY SACHS: Yes, that testimony may be subject to revision based upon our look at that that calendar.  I lieve in the neighborhood that is or question that I have is regarding traffic.  I live in the neighborhood that is directly behind this location. I notice that absolutely no one here has mentioned it at all. And there is a big concern there in people cutting through and most definitely parking.  It is going to be the the location for parking. We're well within half a mile. We're directly behind this facility.  So Center Avenue and Parkway Place are the two side streets between Route 9 and Bordentown Avenue. They're not mentioned. Nobody is talking about them. There has been no part of the traffic study involving these streets. Also Villanova Road which is almost directly opposite Center Avenue.  I what there is a big concern there in people cutting through and most definitely parking.  So Center Avenue and Parkway Place are the two side streets between Route 9 and Bordentown Avenue. They're not mentioned. Nobody is talking about them. There has been no part of the	l.		l	
W. Stimmel, PE, PP, PTOE  W. Stimmel, PE, PP, PTOE  184  1 applicant is presenting information to the public, to the board regarding traffic because that traffic 3 flow in and out of this site, the queuing, getting 4 in and out on the road and the property, are all 5 relevant issues to consider in whether or not this 6 plan is the best plan that it can be and is 7 appropriate. 8 The applicant is the one who is 9 presenting this tonight. The board, you know, is 10 not you know, has not made any decision on 11 anything right now. 12 OSMAN ZAMAN: Thank you. That's all. 13 Thank you for the clarification. 14 CHAIRMAN TIGHE: Ma'am, before you 15 testify I'm just going to mention that we're going 16 to stop at eleven. 17 Go ahead, ma'am. 18 JENNIFER EDWARDS: My name is Jennifer 18 JENNIFER EDWARDS: My name is Jennifer 19 Edwards. Address is 10 Vincent Street, Parlin. I 10 live behind this proposed location. 21 I had a couple of questions for our 22 experts today. So there was testimony given that 23 the hours were going to be from 6:00 a.m. to 24 8:30 p.m. and I know that you reiterated that again. 25 your comments per your comments the potential is  W. Stimmel, PE, PP, PTOE  186  definitely there that this facility would be open outside of the hours that you're giving?  ATTORNEY SACHS: Yes, that testimony may be subject to revision based upon our look at that that calendar.  5 relevant issues to consider in whether or not this 5 that that calendar.  6 JENNIFER EDWARDS: Okay. Second point or question that I have is regarding traffic.  8 I live in the neighborhood that is directly behind this location. I notice that absolutely no one here has mentioned it at all. And there is a big concern there in people cutting through and most definitely parking.  13 It is going to be the the location for parking. We're well within half a mile. We're directly behind this facility.  So Center Avenue and Parkway Place are the two side streets between Route 9 and Bordentown Avenue. They're not mentioned. Nobody is talki			l

And fortunately their streets are parking friendly, so in case if they go overflow, then they can park on the streets.  But the good thing here is on the Masjid Sadar we are constructing, we have similar prototype. We are going to have the number of parking spots specified, and then we also have multiple sessions.  And I believe I'm a worshipper in

4	engineer has requested ATR data which just means	4	
5	automatic traffic recorders that run for a whole	5	(Application adjourned at 11:02 p.m.)
6	week to look at 1 week, 7 days, 24 hours with the	6	
7	directional split to evaluate traffic at other	7	
8	times of the day.	8	
9	So we're in the process of responding	9	
10	to that.	10	
11	SHARON RODAS: Okay. Thank you.	11	
12	CHAIRMAN TIGHE: All right, that	12	
13	concludes our testimony tonight.	13	
14	I'd like to going to thank the	14	
15	public for being extremely good. This was a lot	15	
16	easier than the first one. We're going to have this	16	
17	again	17	
18	ATTORNEY SACHS: Well, I think we	18	
19	originally were thinking May 15th but that's not	19	
20	going to happen so	20	
21	CHAIRMAN TIGHE: June 19th?	21	
22	SECRETARY MAGNANI: June 19th.	22	
23	CHAIRMAN TIGHE: June 19th. We will	23	
24	not re-notice because we're going to have it in the	24	
25	same place, the same time.	25
